FINANCE DEPARTMENT 5350 Belt Line Road

Post Office Box 9010 Addison, Texas 75001

February 18, 2014

Honorable Mayor, Members of the City Council, and City Manager Town of Addison, Texas

The Department of Finance of the Town of Addison is pleased to submit the Comprehensive Annual Financial Report of the Town of Addison, Texas for the fiscal year ended September 30, 2013. The purpose of the report is to provide the City Council, management, staff, the public and other interested parties with detailed information regarding the Town's financial condition.

THE REPORT

This report satisfies §103.001 of the Texas Local Government Code requiring annual audits of all municipalities and was conducted in accordance with Section 2.15 of the Charter of the Town of Addison. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Town. We believe the data is accurate in all material respects and is presented in a manner that fairly sets forth the financial position of the Town. We also believe all disclosures necessary to enable the reader to gain an understanding of the Town's financial affairs have been included. To provide a reasonable basis for making these representations, management of the Town of Addison has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town of Addison's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the Town of Addison's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Comprehensive Annual Financial Report (CAFR) is organized into major *Introductory, Financial, and Statistical Sections*. The *Introductory Section* provides general information on the government's structure and personnel as well as information useful in assessing the government's financial condition.

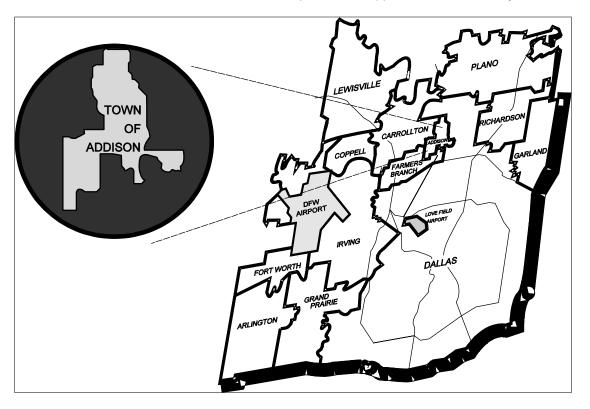

The *Financial Section* contains the opinion of the Town's independent auditor. The Town of Addison's financial statements have been audited by Weaver, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Addison for the fiscal year ended September 30, 2013 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Town of Addison's financial statements for the fiscal year ended September 30, 2013 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Also included in the *Financial Section* is management's discussion and analysis (MD&A) that provides users of the basic financial statements a narrative introduction, overview, and analysis of those statements. The basic financial statements, including the accompanying notes, represent the core of the financial section. These financial statements present the financial condition of the Town of Addison as a single entity, as well as the individual funds that account for the Town's various governmental and business-type activities.

The report concludes with the *Statistical Section*, which, through the use of tables, presents comparative economic and financial data to give users of the report a perspective of the Town's performance over a number of years.

THE REPORTING ENTITY

The Town of Addison is located in the Dallas North Parkway area, which has been referred to as the "platinum corridor" of the Dallas Metroplex. The area, which developed rapidly over the past three decades, is home to affluent neighborhoods, hundreds of million-dollar companies, scores of quality restaurants, and retail. At 4.3 square miles, Addison is the smallest, yet most densely developed, of the various suburbs located in the area. Although it has just over 15,000 residents, the Town has developed into a cosmopolitan center which serves well over 125,000 business persons, shoppers, and visitors daily.

The Town was incorporated in 1953 and is operating under a Charter adopted in 1978 and last amended November 2010. Under the amended Charter, the Council is comprised of a mayor and six council members who enact local legislation, determine policies, and adopt the Town's budget. The mayor and council members are elected for two-year terms with the mayor and three council members being elected each odd-numbered year and the remaining three council members elected each even-numbered year. The City Manager is appointed by the City Council and is responsible to them for the proper administration of the affairs of the Town.

The Town provides a full range of municipal services including general government, public safety (police and fire), streets, parks and recreation, planning and zoning, code enforcement, and water and sewer utilities. Sanitation collection services are provided through private contractors; non-residential customers contract with the collection firm of their choice while single-family residential customers contract through the Town with sanitation fees added to their municipal utility bills.

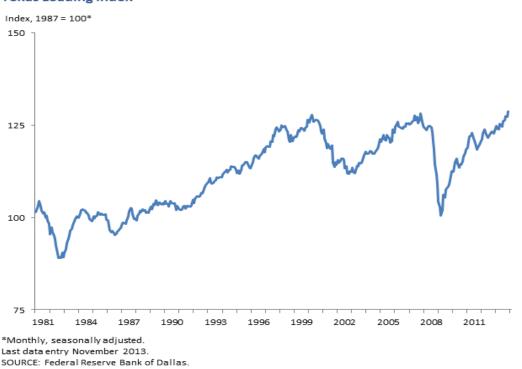

The annual budget of the Town of Addison serves as the foundation for the Town's financial planning and control. The budget is prepared by the City Manager and adopted by the City Council in accordance with policies and procedures established by the Town Charter and council ordinances.¹ The appropriated budget is prepared and presented by fund, department (e.g. police) or function (e.g. debt service), and major cost category (e.g. personal services). All expenses of the Town are made in accordance with the adopted annual budget. The department level is the legal level of control enacted by the Town Charter. Budgetary control is maintained at the individual expenditure account level by the review of all requisitions of estimated purchase amounts prior to the release of purchase orders to vendors. Transfers between expenditure accounts in one department may occur with the approval of the Chief Financial Officer. Transfers between operating department's total budget is not changed by more than five percent. Transfers between funds or transfers between departments that change a department's total budget by more than five percent must be accomplished by budget amendment approved by the City Council. Budget amendments calling for new fund appropriations must also be approved by the City Council.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund, this comparison is presented on page 29 as part of the basic financial statements for the governmental funds. For all governmental funds (including the General Fund) with appropriated annual budgets, this comparison is presented in the governmental fund section of this report, beginning on page 69.

FACTORS AFFECTING FINANCIAL CONDITION

Status of Local Economy

With its concentration of commercial and retail development, the Town of Addison's economy is strongly influenced by the region's economic climate. According to reports issued by the Federal Reserve Bank of Dallas, the regional economy has expanded 4.99 percent over the last year as reflected in the chart below.²

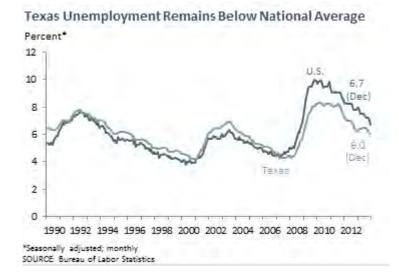

¹ Financial policies can be located beginning on page 115 of the Town of Addison Annual Budget 2013-14 document.

² Source: Federal Reserve Bank of Dallas, November 2013 Data

The United States unemployment rate remains high, although Texas appears to be faring better than the nation as a whole. Texas employment expanded, with employment growing at a 2.3 percent annual rate in November 2013. The unemployment rate for Texas stood at 6.0 percent in December 2013, lower than the national rate of 6.7 percent.³

Because Addison is densely developed with nearly 12 million square feet of office space distributed among 94 office buildings, much attention is given to the occupancy rates of buildings in Addison. At the end of December 2013, Addison's occupancy rate stood at 84.7 percent compared with the 80.14 percent recorded a year earlier. Addison's occupancy rate is also slightly higher than the 81.8 percent average for all of Dallas County.⁴ The Town experienced an 11.3% increase in taxable property values for the 2014 certified levy compared to a 4% increase for the 2013 certified levy. This is the second consecutive year that the Town has experienced an increase in property values.

For the 2013 fiscal year, General Fund revenues of \$29.8 million represented a 1.8 percent increase from fiscal year 2012. The increase is primarily due to an increase in sales tax. The Town's sales tax receipts increased 10.2 percent from fiscal year 2012, indicative of an improving economy. The General Fund budget for the 2014 fiscal year assumes revenues of \$30.7 million, approximately \$870 thousand higher than 2013 actual amounts. The budget also established a property tax rate of 57.18¢ per \$100 appraised value, which is slight rate reduction from the 2013 budget. General Fund expenditures and transfers for the 2014 budget totaling \$31.5 million are approximately 6.5 percent more than the original 2013 budget. The General Fund ending balance is projected to be reduced from the actual ending 2013 balance to \$12.56 million, or 40 percent of fund operating expenditures.

Long-Term Financial Planning

Users of this document as well as others interested in the programs and services offered by the Town of Addison are encouraged to read the Town's 2013-14 Annual Budget. The document details the Town's long-term goals and financial policies, describes program accomplishments and initiatives, and outlines the Town's capital improvement program. The Town's Annual Budget also includes long-term financial plans for the major operating funds that forecast revenues and expenditures over a five-year horizon. The plans are driven by financial policies adopted by the City Council that are designed to protect the Town's financial integrity. The policies include establishing significant fund balances, or reserves, to protect the Town from the boom/bust economic cycle common to the state and the region. The budget document can be obtained from the Town of Addison's Financial and Strategic Services Department by calling (972) 450-7051. The accessed through the department's Annual Budget can also be web site at www.addisontx.gov/departments/financial strategic/.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a *Certificate of Achievement for Excellence in Financial Reporting* to the Town of Addison, Texas for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2012. The *Certificate*, which is reproduced herein, is the highest form of recognition for excellence in state and local government financial reporting. In order to be awarded a *Certificate of Achievement*, a government unit must publish an easily readable and efficiently organized CAFR whose contents conform to program standards. The document must satisfy both generally accepted accounting principles and applicable legal requirements. A *Certificate of Achievement* is valid for a period of one year only. The Town of Addison has received a *Certificate of Achievement* program requirements, and we are submitting it to GFOA.

In addition to the *Certificate*, the Town received GFOA's *Award for Distinguished Budget Presentation* for its fiscal year 2013 annual budget document. In order to qualify for the *Award*, the Town's budget document was judged to be proficient or exceptional in several categories including policy documentation, financial planning, and operations guide. The Town has received the *Award* for 26 consecutive years. Together, the *Award* and the *Certificate* are evidence of the Finance Department's dedication to producing documents that effectively communicate the Town's financial condition to elected officials, city administrators, and the general public.

We wish to thank all members of the Finance Department who assisted us with assembling the information presented in this report and acknowledge the guidance provided by our auditors, Weaver, LLP, and the assistance in meeting the deadlines established for publication of the document. We are grateful for the support provided us by the City Manager and the City Council, and we affirm our pledge to be a resource to help them achieve the goals they have established for the Addison community.

Respectfully submitted,

Eric Cannon, CPA Chief Financial Officer

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of Town Council Of the Town of Addison Addison, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Addison (the Town) as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

WEAVER AND TIDWELL, LL.P. CERTIFIED PUBLIC ACCOUNTANTS AND ADVISORS 12221 MERIT DRIVE, SUITE 1400, DALLAS, TX 75251 P: 972.490.1970 F: 972.702.8321 Town of Addison February 18, 2014

Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of September 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the Hotel Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Texas Municipal Retirement System Analysis of Funding Progress, and the Retiree Health Plan Analysis of Funding Progress on pages 13-21 and 63-64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance on the information or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory section, combining and individual fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Town of Addison February 18, 2014

Page 3

The combining and individual fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 18, 2014, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

As management of the Town of Addison, we offer readers of these financial statements this narrative overview and analysis of the financial activities of the Town of Addison for the fiscal year ended September 30, 2013. Readers are encouraged to read this narrative in conjunction with the transmittal letter at the front of this report and the Town's financial statements, which follow this section. *All amounts reported in this MD&A, unless otherwise indicated, are expressed in thousands of dollars.*

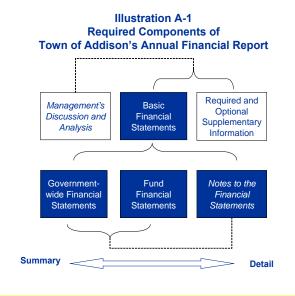

Financial Highlights

- The Town's assets exceeded its liabilities at the close of the 2013 fiscal year by \$228,118. This amount represents an increase over the previous year by \$9,099. The increase is attributed to governmental revenue from taxes and charges for services exceeding the cost of government activities; however, the majority of the increase relates to capital grants and contributions received from the Town's business-type activities related to airport and utility operations.
- As of September 30, 2013, the Town's governmental funds reported combined ending fund balances of \$59,817, an increase of \$3,101. The majority of the increase is due the proceeds from bond issuance in the Capital Project fund and higher than anticipated sales tax collections.
- At the end of the 2013 fiscal year, fund balance for the General Fund was \$13,979, or 49.5 percent of total fund expenditures. Fund balance increased \$1,606 during the year.
- At year-end, the Town of Addison's outstanding debt totals \$104,544, an increase of \$10,646 from the previous year which is attributed to the issuance of new debt and the scheduled retirement of existing debt during the year.

Overview of Financial Statements

This annual report is comprised of four segments as dictated by generally accepted accounting principles (GAAP): *management's discussion and analysis* (this section), the *basic financial statements*, *required supplementary information* and *other supplementary information*. The basic financial statements include two kinds of statements that present different views of the Town.

- The government-wide financial statements provide both long-term and short-term information about the Town's <u>overall</u> financial status.
- The fund financial statements focus on <u>individual parts</u> of Addison's government, reporting the Town's operations in more detail than the government-wide statements.
 - The governmental funds statements explain how <u>general government</u> services like public safety were financed in the shortterm as well as what remains for future spending.
 - *Proprietary fund statements* offer short-term and long-term financial information about the activities the government operates <u>like</u> <u>businesses</u>, such as the airport.

The financial statements also include *notes*, which elaborate on some of the information in the financial statements and that provide more detailed data. These financial statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Illustration A-1 shows how the required parts of this annual report are arranged and relate to one another. In addition to these required elements, we have included other information such as the Town's long-term debt schedules and a statistical section, which, through the use of tables, presents comparative economic and financial data to give users of this report a perspective of the Town's financial performance over a number of years.

Illustration A-2 summarizes the major features of the Town's financial statements. The remainder of this overview section of the management's discussion and analysis explains the structure and contents of each of the statements.

| Major Featu | | ustration A-2 Government-wide and Fund F | inancial Statements | | | | | | | |
|--|---|--|--|--|--|--|--|--|--|--|

| Type of asset/liability information | All assets and liabilities, both financial and capital, short-term and long-term | Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included | All assets and liabilities, both financial and capital, short-term and long-term | | | | | | | |
| Type of inflow/outflow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter | when cash is received or paid | | | | | | | |

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town of Addison's finances in a manner similar to a private-sector business. These statements can be located on pages 22-23 of this document.

- The *statement of net position* presents information on all of the Town's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position **may** indicate the improvement or deterioration of the Town's financial position.
- The *statement of activities* presents information showing how the Town's net position changed during the concluded fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The government-wide financial statements of the Town are divided into two categories:

- Governmental activities These are functions such as fire, police, and visitor services that are principally supported by taxes and intergovernmental revenue.
- Business-type activities These functions are intended to recover all or a significant portion of their costs through user fees and charges. The Town's airport and utility system fall within this category.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Addison, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as *governmental activities*. However, unlike the government-wide financial statements, governmental fund financial statements focus on **short-term** inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's short-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the **long-term impact** of the government's **short-term financing** decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental *funds* and governmental *activities*.

The Town of Addison maintains 11 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all these funds, with the exception of the Economic Development Fund, Municipal Court Fund, Public Safety Fund, and various grant and capital project funds, which are considered non-major funds and are combined into a single, aggregated presentation. Individual fund data for each of these non-major funds is provided in the form of combining statements elsewhere in this report.

The Town adopts an annual appropriated budget for all its governmental funds. A budgetary comparison statement is provided for each fund to demonstrate compliance with this budget.

Proprietary Funds – Services for which the Town charges customers a fee are generally reported in the proprietary funds. Proprietary funds provide the same type of information as the government-wide statements, only in more detail. The Town of Addison maintains two different types of proprietary funds.

- Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its general aviation airport, storm water (drainage), and its utility (water and sewer) system.
- Internal service funds are an accounting device used to accumulate and allocate costs internally among the Town's various functions. The Town uses internal service funds to account for its fleet of vehicles and for its management information systems. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

The proprietary fund financial statements provide separate information for Addison's airport and utility system, both of which are considered to be major funds of the Town of Addison. Conversely, both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data presented in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33-60 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town of Addison's funding of its obligations to provide pension benefits to Town employees through the Texas Municipal Retirement System and to provide other postemployment benefits to Town employees upon retirement. This information is presented on pages 63-64.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented on pages 90-103 and 115-123. Individual proprietary comparative statements are presented on pages 104-122

The Town has included schedules of Capital Assets starting on page 126 and Long-Term Debt starting on page 130.

Government-wide Financial Analysis

As of the close of the 2013 fiscal year, the Town's net position (assets exceeding liabilities) totaled \$228,118 (see Table A-1). Of this amount \$192,687, or 86 percent, represents the Town's investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related outstanding debt used to acquire those assets. Because the Town of Addison uses these capital assets to provide services to the community, these assets are not available for future spending. A portion of net position has been restricted retiring the Town's long-term general obligation debt \$904, promotion of tourism and hotel industry (\$1,942) and other restrictions (\$286). The remaining amount of net position is labeled as unrestricted and totals \$29,763. This amount is available to meet the Town's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town of Addison is able to report positive balances in these two categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

| | Governmental Activities | | Business-ty | pe Activities | Total | | | |

Table A-1 Town of Addison's Net Position

As reflected in Table A-2, the Town's net position increased \$9,099, or 4 percent during the 2013 fiscal year. The increase is primarily due to grant funding at the Addison Airport.

| | Governmen | Governmental Activities | | usiness-typ | tivities | Total | | | | |

Table A-2Town of Addison's Changes in Net Position

Illustration A-3 Total Sources of Revenue

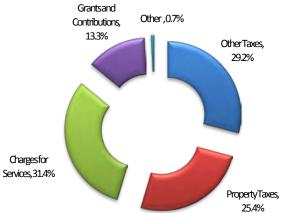

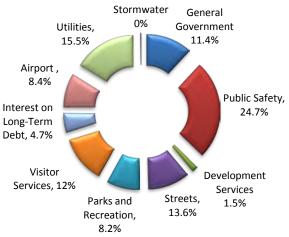

Illustration A-4 Total Expenses by Activity

Governmental Activities

Governmental activities decreased the Town of Addison's net position by \$1,908 primarily due to the purchase of land which was contributed to the Addison Airport.

Business-Type Activities

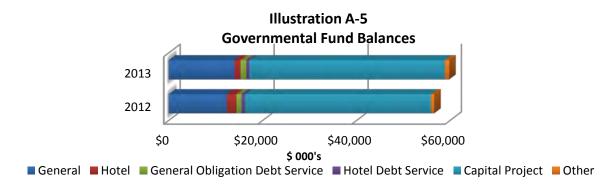

The Town's business-type activities experienced an \$11,007 increase in net position with the Airport Fund recording an increase of \$8,601, while the Utility Fund posted a gain of \$1,235 and the Storm Water Fund increased by \$1,171. Of the Airport Fund's increase, \$9,238 is attributed to capital grants for improvements at the Addison Airport.

Financial Analysis of the Government Funds

Governmental funds – The focus of the Town of Addison's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending following the end of the fiscal year.

As of September 30, 2013, the Town's governmental funds reported combined ending fund balances of \$59,817, an increase of \$3,101 compared to balances a year earlier. Illustration A-5 graphically presents the composition of the various fund balances. Of the ending balance, \$13,637 or 22.8 percent is *unassigned* and is available to the Town for future spending. Most of the remaining fund balance is *restricted* for future capital projects (\$41,716), debt service (\$1,235) or *committed* for Economic Development (\$664). Components of the net increase of total fund balance are:

- In the General Fund, expenditures and transfers out totaled \$25,640 compared to revenues of \$29,830. Revenues increased \$524 from the previous year. The increase was due to receiving an additional \$1,141 in non-property (sales) taxes and an additional \$81 in rental income offset by a decline of \$453 in property taxes. Expenditures increased \$997 from the 2012 fiscal year. This increase is primarily due to public safety (\$506) and general government expenditures (\$264).
- In the Hotel Fund, expenditures and transfers out to other funds totaled \$7,686 compared to revenues of \$6,970. Fund revenues increased \$230 from the previous year, due to an increase in non-property taxes. Expenditures increased \$845 from fiscal year 2012 due in large part to the purchase of a new HVAC system for the Town's Conference and Theater Centre facilities.
- Capital project funds recorded a net increase in fund balance of \$2,060 primarily due to proceeds from bonds issued.

Proprietary funds - The Town of Addison's proprietary funds provide the same type of information found in the government-wide financial statements. Unrestricted net position of the Airport Fund at the end of the fiscal year

amounted to \$5,224, the Utility Fund reported an unrestricted net position of \$11,146, while the Stormwater Fund reported an unrestricted net position of \$1,171.

General Fund Budgetary Highlights

Major differences between the original budget and the final amended budget are described below:

 Revenues were amended to recognize increase in sales tax revenue (\$1,470), and building and construction permits (\$60). All revenue amendments resulted in a net budget increase of \$1,761. Allocations to various departments were made that resulted in a net increase to appropriations of \$172.

The adjustments resulted in increasing budgeted revenue 6.3 percent and increasing expenditures by .58 percent. The projected deficit of expenditures and other uses exceeding revenues decreased from \$1,381 to a surplus of \$207. Fund balance actually increased \$207.

Capital Asset and Debt Administration

Capital assets – As detailed in Table A-3 below, the Town of Addison's investment in capital assets for its governmental and business-type activities as of September 30, 2013, totals \$239,244 (net of accumulated depreciation). This amount represents a \$6,346 increase from the previous year and is attributed to investment in new assets exceeding depreciation of existing assets. Projects that are in progress include the Belt Line Road Utility Undergrounding, Pedestrian Connectivity, and Midway Road Revitalization. More information related to the Town's capital assets can be found in Sections I, D, 4 and III, D of the Notes to Financial Statements.

Table A-3Town of Addison's Capital Assets

(Net of Depreciation)

| | Governmental Activities | | | Business-type Activities | | | | | Total | | | |
|-----------------------------------|-------------------------|---------|-----------|--------------------------|----|--------|----|--------|-------|---------|----|---------|
| | 2013 2012 | | 2013 2012 | | | 2013 | | 2012 | | 2013 | | 2012 |
| Land | \$ | 66,233 | \$ | 66,233 | \$ | 12,319 | \$ | 10,277 | \$ | 78,552 | \$ | 76,510 |

| Improvements other than Buildings | | 82,403 | | 81,816 | | 40,750 | | 40,915 | | 123,153 | | 122,731 |
| Machinery and Equipment | | 4,049 | | 3,117 | | 650 | | 783 | | 4,699 | | 3,900 |
| Construction in Progress | | 4,902 | | 7,814 | | 8,974 | | 9,451 | | 13,876 | | 17,265 |
| Total Capital Assets | \$ | 168,701 | \$ | 170,066 | \$ | 70,543 | \$ | 62,832 | \$ | 239,244 | \$ | 232,898 |

Long-term debt – At the end of the 2013 fiscal year, the Town of Addison had total bonded debt outstanding of \$104,544 as detailed in Table A-4. The Town did issue new debt during 2013. The Town of Addison maintains an underlying bond rating of "AAA" from Standard & Poor's and "Aa1" from Moody's. Other than the 2008, 2011, and both 2012 issues, all of the Town's outstanding debt is insured; however the insurers' ratings have been downgraded in the past few years. Of the Town's insurers as of September 30, 2013 MBIA carries a rating of "B" from Standard & Poor's. Ambac's rating was withdrawn by both S&P and Moody's. The insurer FSA changed its name to Assured Guaranty Municipal Corporation (AGM) and currently holds a rating of "A2" by Moody's. Because of the strength of the Town's own credit ratings, future bond sales should obtain competitive bids with relatively low financing rates. More information related to the Town's long-term debt can be found in Section III, F of the Notes to Financial Statements.

Table A-4 Town of Addison's Outstanding Debt (net of depreciation)

Economic Factors and Next Year's Budget and Rates

The Texas Workforce Commission no longer maintains individual statistics for cities with a population of less than 25,000, and therefore information related to Addison employment is unavailable. However, the average unemployment rate for the adjacent cities of Carrollton and Farmers Branch as of December 2013 averaged 5.05 percent, somewhat lower than the 5.45 percent rate recorded a year earlier. This unemployment rate is less than that of the Dallas/Plano/Irving Metro Division, which recorded a 5.3 percent rate. The December 2013 rate for the State of Texas was 5.6 percent, lower than the 6 percent in December 2012.¹

Sales tax collections for the Town were up 10.17 percent from the amount collected in 2012 after three consecutive years of increases in annual collections. This increase appears to indicate an improving local economy.

Hotel occupancy tax collections increased 6.52 percent from the previous year. This represents three consecutive years of increasing annual collections, although collections are still down 12.14 percent from the 2008 fiscal year. In July 2013 Addison received its certified property tax roll from the Dallas Central Appraisal District. This certified roll is what Texas local governments use to levy taxes for the 2013-14 fiscal year. Certified taxable property values in Addison totaled \$3,490,007 which represented an 11.33 percent increase from the previous year, and was the second year of increased values following three consecutive years of decreased values.

These various factors were taken into consideration in development of the Town's 2013-14 annual budget. The annual budget is adopted within context of five-year financial plans for the General, Hotel, Airport, and Utility funds. The long-term financial plans project operating revenues and expenses and changes in fund balances related to the Town's adopted financial policy to work to maintain a minimum 25% fund balance for these funds. Major aspects of the adopted 2013-14 budget include:

The property tax rate was lowered from \$.5800 to \$.5718 per \$100 appraised value. The decreased rate and increase in property values will provide an additional \$516 for the Town's annual debt service. Of the 2014 budget tax rate, \$.3588 was levied for operation/maintenance (including \$.0229 for economic development funding) and \$.213 for debt service. This compares to the 2013 distribution of \$.3593 and \$.2207 respectively. (Note: The preceding tax rates are not reflected in \$000's of dollars).

The General Fund balance is projected to decline \$778,669 from the actual beginning fund balance of \$13,336 to \$12,557. The projected ending fund balance is 40 percent of operating expenditures.

The Hotel Fund balance is projected to raise \$200 from the actual beginning fund balance of \$1,471 to \$1,671. The projected ending fund balance is 25% percent of operating expenditures, which is in line with the long-term financial plan for the fund.

The budget includes a water and sewer rate adjustment, which provides for a slight increase in water rates and a decrease in sewer rates. Overall, the new rates reflect an approximate reduction of 5% in the average Residential customer's monthly bill.

TOWN OF ADDISON RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION FOR THE YEAR ENDED SEPTEMBER 30, 2013

| Total Fund Balances - Governmental Funds | \$ 59,816,944 |
|---|-------------------|
| The Town uses internal service funds to charge the costs of certain activities such as replacement of capital assets and information technology to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the government-wide statement of net assets. The effect of this consolidation is to increase net assets. | 9,379,057 |
| Capital assets used in governmental activities, including infrastructure and developer contributions, are not financial resources and therefore are not reported in fund financial statements. Capital assets of \$165,669,868, net of accumulated depreciation of \$95,511,204, exclusive of the capital assets of internal service funds with a net carrying value of \$3,031,606, included above increased net assets in | |
| the government-wide financial statements. | 165,669,868 |
| Debt issue costs have been reflected net of amortization in the government-wide financial statements. | 512,187 |
| Bonds payable, contractual obligations, and related premium and deferred refunding amounts have not been included in the fund financial statements. | (83,855,981) |
| Accrued liabilities for compensated absences have not been reflected in the fund financial statements. | (882,375) |
| Net OPEB obligation is not reflected in the fund financial statements. | (414,785) |
| Interest payable on outstanding debt is accrued in the government-wide financial statements, whereas in the fund financial statements an interest expenditure is reported when due. The effect of recording accrued interest is to decrease net assets. | (419,192) |
| Revenue from property taxes, sales taxes, franchise fees, court bonds, ambulance billing, and intergovernmental grants is deferred in the fund financial statements until it is considered available to finance current expenditures, but such revenues are recognized when assessed, net of an allowance | |
| for uncollectible accounts, in the government-wide statements. | 3,345,820 |
| Net Position of Governmental Activities | \$ 153,151,543 |

Town of Addison, Texas Basic Financial Statements

TOWN OF ADDISON RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2013

| Total Net Change in Fund Balances - Governmental Funds \$ | 3,100,606 |
|--|-------------|
| The Town uses internal service funds to charge the costs of certain activities such as replacement of capital assets and information technology to appropriate functions in other funds. The revenues and expenses of the internal service funds are included in governmental activities in the government-wide statement of activities. The effect of this consolidation is to increase net assets. | 35,254 |
| Current year capital outlays are expenditures in the fund financial statements, but they are shown as increases in capital assets in the government-wide financial statements. Developer contributions are recorded as capital contributions in the government-wide financial statements. The effect of removing the capital outlays and recording the developer contributions is to increase net assets. | 4,501,828 |
| Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The effect of recording the current year's depreciation is to decrease net assets. | (6,195,742) |
| The repayment of the principal of long term debt consumes the current financial resources of governmental funds, but has no effect on net assets. The amortization of bond issuance costs, bond premiums, bond discounts, and deferred gain/loss on refunding of long term debts is reported in the statement of activities but does not require the use of current financial resources. Therefore the effect of the amortization of these various items are not reported in the statement of revenues, expenses, and changes in fund balance. This amount represents the increase(decrease) in net assets of the following: | |
| Bond proceeds (7,790,000) | |
| Bond repayments 4,701,161 | |
| Debt issuance costs 81,253 | |
| Bond premiums (292,493) | |
| Bond discounts 56,983 | |
| Amortization 63,011 | (3,180,085) |
| The change in compensated absences liability is not shown in the fund financial statements. The net effect of the current year's increase in liability is to decrease net assets. | (69,146) |
| The change in the net OPEB obligation is not shown in the fund financial statements. The effect of recording the increase in liability is to decrease net assets. | (28,242) |
| Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements an interest expenditure is reported when due. The effect of recording the increase in accrued interest is to decrease net assets. | (169,049) |
| Revenue from property taxes, sales taxes, franchise fees, court bonds, ambulance billing, and intergovernmental grants not recognized in fund financial statements on the modified accrual basis is recognized on the accrual basis in the government-wide financial statements. | 96,725 |
| Change in Net Position of Governmental Activities \$ | (1,907,851) |

September 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the Town of Addison, Texas ("Town"), relating to the funds included in the accompanying financial statements, conform to the generally accepted accounting principles applicable to state and local governments. The following represent the more significant accounting and reporting policies and practices used by the Town.

A. <u>Reporting Entity</u>

The Town is a municipal corporation incorporated on June 15, 1953, under the Constitution of the State of Texas (Home Rule Amendment). The Town's charter was amended by an election on January 16, 1993. The Town operates as a Council-Manager form of government and provides such services as are authorized by its charter to advance the welfare, health, comfort, safety, and convenience of the Town and its inhabitants.

The Town is a financial reporting entity as defined by GASB Statement No. 14, "*The Financial Reporting Entity*," as amended by GASB Statement No. 61 "The Financial Reporting Entity: Omnibus: an amendment of GASB Standards No. 14 and No. 34." As required by generally accepted accounting principles (GAAP), the Town's financial statements include all required activities relating to the Town and its operations. In accordance with the standards, the Town does not have component units requiring inclusion.

B. Basic Financial Statements

The basic financial statements include both government-wide financial statements (based on the Town as a whole) and fund financial statements. Both sets of financial statements classify activities as either governmental activities, which are supported by taxes and intergovernmental revenues, or business-type activities, which rely on fees and charges for support.

The government-wide Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are clearly identifiable with a specific function. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. "Measurement focus" refers to what is being measured, and "basis of accounting" refers to the timing of revenue and expenditure recognition in financial statements. The government-wide financial statements and the proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are reported when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year in which they are levied.

The governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (i.e., both measurable and available). "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

NOTES TO FINANCIAL STATEMENTS September 30, 2013

The Town considers all revenues available if they are collected within thirty (30) days after year-end. Expenditures are recognized when the related fund liability is incurred, if measurable, except for principal and interest on general long-term debt, which are recorded when due, and compensated absences, which are recorded when payable from currently available financial resources.

Ad Valorem (property), sales, and hotel taxes, as well as franchise fees, recorded in the General Fund and Ad Valorem tax revenues recorded in the Economic Development Fund and General Obligation Debt Service Fund are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fines and forfeitures, and miscellaneous revenues (except earnings on investments) are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Town's airport and utility functions and various other functions of the Town, and charges of the internal service funds to the Airport and Utility funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating expenses of the Town's enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The Town reports the following major governmental funds:

<u>General Fund</u> – The General Fund is used to account for all financial resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund. Revenues which are not allocated by law or contractual agreement to other funds are accounted for in this fund.

<u>Hotel Fund</u> – The Hotel Fund is used to account for tax revenues received from local hotels. Expenditures must fall within the guidelines set forth in the Texas Hotel Occupancy Tax Act (Article 1269: Vernon's Texas Civil Statutes).

<u>General Obligation Debt Service Fund</u> – The General Obligation Debt Service Fund accounts for the accumulation of resources to be used for the payment of principal and interest on the general obligation bonded debt of the Town.

<u>Hotel Debt Service Fund</u> – The Hotel Debt Service Fund accounts for the accumulation of resources to be used for the payment of principal and interest on the Hotel Occupancy Tax Revenue certificates of obligation.

<u>Capital Projects Fund</u> – The Capital Projects Fund is used to account for financial resources related to the acquisition, construction, or improvements of major capital assets.

September 30, 2013

Additionally, the Town reports the following non-major governmental funds:

<u>Municipal Court Fund</u> – The Municipal Court Fund accounts for the Town's court building security and technology fees that are generated from court citation fines. According to state law, the revenue generated from these fees may only be spent on the municipal court function.

<u>Public Safety Fund</u> – The Public Safety Fund accounts for awards of monies or property by the courts relating to cases that involve the Addison Police Department. In prior years, this fund was classified as an expendable trust fund.

<u>Advanced Funding Grant Fund</u> – The Advanced Funding Grant Fund accounts for grant monies that are received prior to the related expenditure, and therefore the fund may carry a balance from year to year if the Town does not expend the monies within the fiscal year.

<u>American Recovery and Reinvestment Act (ARRA) Grant Fund</u> – The American Recovery and Reinvestment Act (ARRA) Grant Fund accounts for receipts and expenditures of ARRA grant monies. The Act requires the separation of ARRA funds from other grant monies.

<u>Economic Development Fund</u> – The Economic Development Fund accumulates resources to support efforts that attract commercial enterprises to Addison and encourage existing businesses to remain in Addison.

<u>Reimbursement Grant Fund</u> – The Reimbursement Grant Fund accounts for expenditures for which the Town expects to be reimbursed. For any reimbursements not received prior to the fiscal year end, the Town will record a receivable. Amounts not received within 30 days of the fiscal year end are reported as deferred revenue.

The Town reports the following major proprietary funds:

<u>Airport Fund</u> – The Airport Fund accounts for all revenue generated by the Town's general aviation airport. The Town is required to spend this revenue on airport functions. The airport's operating, maintenance, and capital expenses are supported solely by airport income.

<u>Utility Fund</u> – The Utility Fund provides water and sewer services to the residents and businesses of the Town. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing.

<u>Stormwater Fund</u> - The Town's Stormwater Fund is financed and operated in a manner similar to private business enterprises, where costs of providing the services to the public are financed primarily through user charges. All operating, maintenance, and capital expenses are supported solely by the approved user fees.

Additionally, the Town reports the following internal service funds:

<u>Capital Replacement Fund</u> – The Capital Replacement Fund is used to accumulate sufficient resources to replace existing capital equipment that have reached or exceeded their useful lives. Resources are acquired through charges to operating departments in the governmental funds. The charges are calculated using a straight-line amortization of each piece of equipment based upon the item's expected life. The funds are used to finance replacement equipment when needed.

<u>Information Technology Replacement Fund</u> – The Information Technology Replacement Fund is used to accumulate sufficient resources to replace existing information technology systems. Resources are acquired through charges to operating departments in the governmental funds. The charges are calculated using a straight-line amortization of each component of a system based upon the component's expected life. The funds are used to finance replacement equipment when needed.

September 30, 2013

Private-sector standards of accounting and financial reporting issued after November 30, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Town has elected not to follow subsequent private-sector guidance.

D. Assets, Liabilities, and Net Assets or Equity

1) Cash and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. To maximize investment opportunities, all funds participate in a pooling of cash and value.

Statutes authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities; obligations of the State of Texas and related agencies; obligations of state, agencies, counties, cities and other political subdivisions of any state rated A or above by Standard & Poor's Corporation or Moody's Investors Service; certificates of deposit issued by state or national banks and savings banks domiciled in Texas; fully collateralized direct repurchase agreements; prime domestic banker's acceptances (BA's); commercial paper with a stated maturity of 180 days or less and a rating of not less than A-1+ or its equivalent; and state or local government investment pools.

Investments for the Town are reported at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. The Town considers quoted market price at September 30, 2013 to be the fair value of investments. The government investment pools, TexPool and TexSTAR, operate in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of pool shares.

2) <u>Receivables and Payables</u>

All receivables for the Town are reported net of an allowance for uncollectibles. The allowances are based on historical collections data and evaluated periodically.

The Town's property tax lien is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the Town. Values are assessed at 100% of the estimated market value. Taxes are due by January 31 following the October 1 levy date and are considered delinquent after January 31 of each year. Taxes unpaid as of February 1 are subject to penalty and interest as the City Council provides by ordinance.

3) Inventories and Prepaid Items

In accordance with the consumption method of accounting, both inventories and prepaid items are recorded as expenditures when consumed rather than when purchased.

Inventories are stated at cost. Cost is determined for inventories of supplies and fuel using the moving-average method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid in the government-wide and fund financial statements. The prepaid items of the Town consist primarily of prepaid software licensing agreements and postage.

September 30, 2013

4) Capital Assets

Capital assets include land, buildings, equipment, and improvements. Improvements include upgrading facilities other than buildings such as streets or sewers and infrastructure, including pavement, storm sewers, and right-of-way contributed by developers. Capital expenditures are defined as purchases that meet specific guidelines as listed below:

- Expected useful life must be one year or more.
- Original unit cost of the item should be \$5,000 or greater and includes all costs enabling the item into operation, such as freight, installation, and accessories.
- The item should not be consumed, unduly altered, or materially reduced in value immediately by use.
- Bulk purchases of smaller equipment with a useful life of at least one year will be capitalized if the total amount of the purchase exceeds \$25,000.

The Land and Improvements other than Buildings categories associated with governmental activities include amounts for infrastructure. Related accumulated depreciation of Improvements other than Buildings includes amounts associated with infrastructure. Subsequently, infrastructure is tracked and reported as a separate component of general capital assets associated with governmental activities.

The internal service funds may record assets that have an original cost of \$5,000 or less as assets are considered part of an overall system. Individual items may be retired and replaced as parts of the larger system.

Contributed assets are recorded at fair market value as of the date donated. Depreciation of property, plant, and equipment by major classes is provided by the straight-line method based on the following estimated useful lives by major class of depreciable capital assets:

| Buildings | 50 years |
|-----------------------------------|------------|
| Improvements other than Buildings | |
| Equipment | 3-50 years |

Depreciation of current year additions and retirements is computed at one-half the straight-line rate.

5) Compensated Absences

Vacation, holiday, and sick pay costs are charged to operations when taken by the employees of the Town. In the event of termination, an employee is reimbursed for all accumulated vacation and holiday days not exceeding two years' accumulation. The amounts of such liabilities have been provided for in the government-wide financial statements. No reimbursements upon termination are made for accumulated sick leave; accordingly, no liability for unused sick leave has been provided. The Town's liability for compensated absences increased \$81,285 for a total liability of \$946,914.

6) Grants and Contributions

Included in capital grants and contributions in the government-wide financial statements is \$9,405,418 of grants; \$9,238,288 for improvements at the Addison Airport and \$93,552 for utility related projects. Operating grants included \$73,578 of funding for general government initiatives.

September 30, 2013

7) Fund Equity

The Town reports governmental fund balances per GASB 54 definitions as follows:

Nonspendable – Amounts that are not in spendable form or are required to be maintained intact, such as inventory or prepaid amounts or that are legally or contractually required to remain intact

Restricted – Amounts that can be spent only for specific purposes stipulated by external parties, such as grants, court technology fees, and court building security fees or that are imposed by law through constitutional provisions or enabling legislation

Committed – Amounts whose use is constrained by specific limitations that the Town imposes itself, as determined by a resolution by the Town Council, such as economic development funding

Assigned – Amounts intended to be used for specific purposes. The Town Council has delegated the responsibility to assign funds to the CFO or his designee. Assignments may occur subsequent to fiscal year end.

Unassigned – Amounts not contained in other classifications that can be used for any purpose

Governmental Funds fund balances classified as restricted are balances with constraints placed on the use of resources by creditors, grantors, contributors or laws or regulations of other governments. Fund balances classified as committed can only be used for specific purposes pursuant to constraints imposed by the City Council through an ordinance or resolution. Assigned fund balances are constrained by an intent to be used for specific purposes but are neither restricted or committed. Assignments are made by City management based on Council direction.

The Town will utilize funds for expenditures from the most restrictive fund balance first when more than one fund balance classification is available.

8) Minimum Fund Balance Policy

It is the desire of the City to maintain adequate General Fund fund balance to maintain liquidity and in anticipation of economic downturns or natural disasters. The City Council has adopted a financial standard to maintain a General Fund minimum fund balance of 25 percent of budgeted expenditures.

9) Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets net of accumulated depreciation and the outstanding balances of any borrowing spent for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

<u>Budget Policy</u> – The City Council follows these procedures in establishing the budget reflected in the financial statements:

NOTES TO FINANCIAL STATEMENTS September 30, 2013

- 1) Prior to August 1 each year, the City Manager submits to the City Council a proposed budget for the fiscal year beginning on the following October 1. The operating budget includes proposed expenditures and the means to finance them.
- 2) Public hearings are conducted where all interested persons' comments concerning the budget are heard.
- 3) The budget is legally enacted by the City Council through passage of an ordinance prior to the beginning of the fiscal year.
- 4) The department level is the legal level of control enacted by the Town Charter. The Town has also adopted a budget amendment policy delineating responsibility and authority for the amendment process. Transfers between expenditure accounts in one department may occur with the approval of the Chief Financial Officer. Transfers between operating departments may occur with the approval of the City Manager and Chief Financial Officer provided a department's total budget is not changed by more than five percent. Transfers between funds or transfers between departments that change a department's total budget by more than five percent must be accomplished by budget amendment approved by the City Council. Budget amendments calling for new fund appropriations must also be approved by the City Council.

Budgetary control is maintained at the individual expenditure account level by the review of all requisitions of estimated purchase amounts prior to the release of purchase orders to vendors. Open encumbrances are reported as assignments of fund balance.

5) Budgets for the General, Special Revenue, and Debt Service funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets for the Capital Project funds are normally established pursuant to the terms of the related bond indentures, that is, project basis.

Budget Data – The budget amounts presented in the statements reflect original and amended budget amounts. During the fiscal year, several budget amendments were approved by the City Council. The most notable amendments are described in the remainder of this section. In the General Fund, Sales Tax revenue was increased \$1,655,990 due to higher than expected sales in the Town, resulting in higher collection of sales tax revenue. Rental Income revenue was increased \$60,000 due to the execution of a new lease with a local restaurant for Town owned property. The Combined Services budget was increased \$25,000 to cover attorney fees resulting from normal operations. Police and Fire budgets were adjusted \$41,730 and \$65,560, relatively, for increased costs resulting from vehicle maintenance. Hotel Fund occupancy revenue was increased \$395,000 for additional hotel occupancy tax. Also, special event revenue was increased \$115,000. The special events budget was increased \$108,900 primarily for increased security at Town events. The Conference Centre budget was increased \$649,000 for the purchase of capital related items. The Parks Capital Project fund expenditures were increased \$37,000 due to increase park projects. The 2012 Capital Project and 2013 Capital project funds revenues increased \$85,000 and \$8,082,493, respectively for interest income and bond proceeds. The 2012 Capital Project fund expenditures were increased \$3,403,000 to recognize project expenses related to Belt Line Rd. and Vitruvian Park. Airport enterprise fund increased revenues and working capital \$3,321,789 for bond proceeds and rental income. The Stormwater enterprise fund revenues and working capital were increased \$8,702,481 to reflect additional revenue received and increased \$65,000 in expenses for the operating costs.

<u>Excess of Expenditures over Appropriations</u> – For the year ended September 30, 2013, expenditures in the Hotel Fund, Special Event expenditures exceeded appropriations by \$15,539 due to increased security for the events. Available fund balance was sufficient to provide for the excess expenditures.

Encumbrance accounting is employed in governmental funds. Encumbrances outstanding at year-end are reported as assignments of fund balances and do not constitute expenditures or liabilities because the amounts will be expended the subsequent fiscal year.

NOTES TO FINANCIAL STATEMENTS September 30, 2013

III. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

The Town has five bank accounts: the Operating Account, Controlled Disbursement Account, Payroll Account, ACH/Wire Account, and Benefits Account. The Controlled Disbursements and Payroll accounts are zero-balance accounts. The ACH/Wire Account is used for all receipts and expenditures made by ACH or wire transfer. The Town uses the Operating Account as an investment pool available for all funds. Each fund type's portion of this pool is reported on the Combined Balance Sheet as "Cash and Investments." The other demand accounts are reported in the same manner.

The investment policies of the Town are governed by state statutes and an Investment Policy Ordinance adopted by the City Council. Major provisions of the Town's investment policy include: responsibility for investments, authorized investments, bank and security dealer selection and qualifying procedures, safekeeping and custodial procedures, statement of investment objectives, and investment reporting procedures.

<u>Cash</u>

State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies or instrumentalities that have a market value of not less than the principal amount of the deposits. The Town's deposits were fully insured or collateralized as required by the state statutes at September 30, 2013. Included in Cash and Investments is \$6,075 of petty cash. At year-end, the carrying amount of the Town's deposits was a debit balance of \$1,494,806. The respective bank balance totaled \$3,082,296. In addition, collateral with a market value of \$5,507,733 was held by the pledging financial institution's account at the Federal Reserve Bank in the Town's name.

In order to maximize interest earnings, the Town utilizes a controlled disbursement account that allows the Town to deposit only as much money needed to fund checks presented for payment each day. The amount required is withdrawn from the investment pool.

External Investment Pools

The Town's pool investments as of September 30, 2013 were invested in TexPool and TexSTAR (Texas Short Term Asset Reserve program).

Federated Investors is the full service provider for the TexPool program. As the provider, the responsibilities include managing the assets, providing participant services, and arranging for all custody and other functions in support of the operations under a contract with the State Comptroller of Public Accounts. JPMorgan Fleming Asset Management, Inc. and First Southwest Asset Management, Inc. serve as co-administrators for TexSTAR under an agreement with the TexSTAR board of directors. JPMFAM provides investment management, fund accounting, transfer agency and custodial services, and FSAM provides administrative, marketing and participant services.

TexPool and TexSTAR are not registered with the Securities and Exchange Commission (SEC) as investment companies. TexPool and TexSTAR are investment pools that have been organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code.

The fair value of the Town's position in the external investment pool is the same as the value of the pool shares.

September 30, 2013

Investments

As of September 30, 2013, the Town held the following investments:

| - | Fair Value | Average Maturity (Days) |
|--------------------------------|--------------|----------------------------|
| Agency Securities | \$20,662,194 | 713 |
| Commercial Paper | 12,334,063 | 224 |
| Certificate of Deposit | 24,538,418 | 596 |
| Total Investment in Securities | 57,534,675 | |
| TexStar | 21,687,775 | |
| TexPool | 4,607,160 | |
| Total Investment in Pools | 26,294,935 | 1 |
| Total Investments | \$83,829,610 | 566 |

In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for *External Investment Pools*," the Town records investments at fair value. However, for investments with maturities of one year or less at time of purchase, the Town reports these investments at book value. The carrying value of the Town's investments at September 30, 2013 was \$83,826,230, of which \$48,628,997 had maturities of less than one year at time of purchase.

Interest Rate Risk – In accordance with its investment policy, the Town manages its exposure to declines in fair value by limiting the weighted average days to maturity of its investment portfolio to 18 months (540 days).

Credit Risk – The reported investments meet the criteria specified in the Town's investment policy related to the specific types of instruments presented.

- a) Debt obligations with a maturity not to exceed five years from the date of purchase issued by, guaranteed by, or for which the credit of any of the following Federal Agencies and Instrumentalities is pledged for payment: Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), and Federal Home Loan Mortgage Corporation (FHLMC). The Town's investments in bonds of U.S. Agencies were rated Aaa by Moody's Investors Service and AAA by Standard and Poor's. Mortgage-backed securities may be held as collateral although principal-only and interest-only mortgage-backed securities as well as all types of collateralized mortgage obligations (CMO) and real estate mortgage investment conduits (REMICs) are expressly prohibited.
- b) Prime commercial paper with an original maturity of one hundred eighty days or less which at the time of purchase, is rated at least A-1 by Standard and Poor's, P-1 by Moodys or F1 by Fitch.
 - (1) At the time of purchase, the commercial paper must be rated by at least two of the above stated ratings agencies at the above stated minimum credit rating.
 - (2) If more than two of the above rated agencies rates an issuer, all the rating agencies must rate the issuer in accordance with the above stated minimum credit criteria.
 - (3) If the commercial paper issuer has senior debt* outstanding, the senior debt must be rated by each service that publishes a rating of the issue at least:
 - A-1 by Moodys
 - A+ by Standard and Poor's

September 30, 2013

A+ by Fitch

(*Senior Debt is defined as the most senior secured or unsecured debt of an issuer with an original maturity exceeding one year)

If the commercial paper issuer is given a "plus (+) rating", the maximum maturity of 270 days or less will be allowed.

- c) Time Certificates of Deposit with a maturity not to exceed three years from the date of purchase, insured by the Federal Deposit Insurance Corporation (FDIC) or its successor, in depository institutions that have a main office or a branch in the state of Texas which have been approved by the Town in accordance with its Investment Policy. In addition, separate CDs issued by depositories wherever located, bundled together into a single investment with the full amount of principal and interest of each CD federally insured may be purchased through a selected depository institution with its main office or branch office in Texas. This depository shall act as the custodian for the various certificates on behalf of the Town.
- d) State and Local Investment Pools organized under the Interlocal Cooperation Act that meet the requirements of Chapter 2256 Texas Government Code and have been specifically approved by the CFO and authorized by the City Council. TexPool and TexSTAR are both currently rated AAAm by Standard and Poor's.

Concentration of Credit Risk – It is the Town's policy to avoid a concentration of assets in a specific maturity, a specific issue, or a specific class of securities. The applicable limits on the Town's current investments are Instrumentality Securities (70%) of which the Town's portfolio is currently at 25%, Commercial Paper (30%) of which the Town's portfolio is currently at 25%, Commercial Paper (30%) of which the Town's portfolio is currently at 29%, and Local Government Investment Pools (40%) of which the Town's portfolio is currently at 31%. The Town received a large deposit in September that was invested in the Local Government Investment Pool which put the Town over the limit for Local Government Investment Pool investments. The funds were reinvested in October to reallocate the investments.

B. Ad Valorem (Property) Taxes

Property taxes attach as an enforceable lien on property as of January 1. The Town's property tax is levied on the assessed value listed as of the prior January 1 for all real and business personal property located in the Town. Assessed values are established by Dallas Central Appraisal District at 100% of the estimated market value and certified by the Appraisal Review Board. The assessed taxable value for the roll of January 1, 2012, upon which the fiscal year 2013 levy is based, was \$3,134,894,878.

The Town is permitted by Article XI, Section 5 of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The tax rate for the year ended September 30, 2013 was \$.58 per \$100, of which \$.3593 was allocated for general government and \$.2207 was allocated for the payment of principal and interest on general obligation and certificates of obligation long-term debt.

Taxes are due by January 31 following the October 1 levy date and are considered delinquent after January 31 of each year. Taxes unpaid as of February 1 are subject to penalty and interest as the City Council provides by ordinance. Current tax collections for the year ended September 30, 2013 were 98.9% of the original tax levy. In Texas, countywide central appraisal districts are required to assess all property within the appraisal district on the basis of 100% of its appraised value and are prohibited from applying any assessment ratios. The value of property within the appraisal district must be reviewed every three years; however, the Town may at its own expense require annual reviews of appraised values. The Town may challenge appraised values established by the appraisal district through various appeals and, if necessary, legal action. Under this arrangement, the Town continues to set tax rates on Town property

September 30, 2013

However, if the effective tax rate, excluding tax rates for retirement of bonds and other contractual obligations, adjusted for new improvements, exceeds the rate for the previous year by more than 8%, qualified voters of the Town may petition for an election to determine whether to limit the tax rate to no more than 8% above the tax rate of the previous year. This legislation also provides that, if approved by the qualified voters in the Town, both the appraisal and collection functions may be placed with the appraisal district.

Taxes are recognized as revenue beginning on the date of levy when they become available. "Available" means collected within the current period or expected to be collected soon enough thereafter to be used to pay current liabilities. Taxes not expected to be collected within thirty (30) days of the fiscal year ending are recorded as deferred revenues and recognized as they become available. Taxes collected prior to the levy date to which they apply are recorded as deferred revenues and recognized as revenue of the period to which they apply. An allowance for uncollectible taxes, including principal and interest, is provided based on an analysis of historical trends. The allowance for uncollectible taxes at September 30, 2013 was \$93,555.

C. Receivables

As of September 30, 2013, receivables for the Town's individual major governmental funds, non-major governmental funds, and internal service funds in the aggregate, including the applicable allowance for uncollectible accounts, are as follows:

| | General | Hotel | Debt Service | Hotel Debt <u>Service</u> | Capital Projects | Non-Major Funds | Internal Service Funds | Total |
|---------------------------------------|--------------|------------|-----------------|---------------------------------|---------------------|--------------------|------------------------------|--------------|
| Taxes: | | | | | | | | |
| Ad Valorem | \$ 254,784 | \$- | \$ 124,487 | \$- | \$- | \$ 2,188 | \$- | \$ 381,459 |
| Non-Property | 2,586,467 | 354,446 | - | - | - | - | - | 2,940,913 |
| Franchise Fees | 510,028 | - | - | - | - | - | - | 510,028 |
| Service Fees | 1,325,915 | - | - | - | - | - | - | 1,325,915 |
| Ambulance | 298,004 | - | - | - | - | - | - | 298,004 |
| Interest | 9,725 | 1,487 | 928 | 446 | 30,697 | 819 | 4,580 | 48,682 |
| Other | 7,899 | 248,720 | | | 10,335 | 227,351 | | 494,305 |
| Gross Receivables | \$4,992,822 | \$ 604,653 | \$ 125,415 | \$446 | \$41,032 | \$230,358 | \$ 4,580 | \$5,999,306 |
| Less: Allowance for Uncollectibles | 409,962 | | 35,600 | | <u> </u> | 3,629 | | 449,191 |
| Net Receivables | \$ 4,582,860 | \$ 604,653 | \$ 89,815 | \$ 446 | \$ 41,032 | \$ 226,729 | \$ 4,580 | \$ 5,550,115 |

The allowance for uncollectible accounts represents reserves for ambulance (\$100,576), court warrants (\$255,060), and property taxes (\$93,555).

NOTES TO FINANCIAL STATEMENTS September 30, 2013

D. Capital Assets

Capital Asset activity for the year ended September 30, 2013 was as follows:

| | Beginning Balance | Increases | Decreases | Transfers | Ending Balance |
|--|-----------------------------|--------------------------|-----------|-------------|-----------------------------|
| Governmental Activities: | | | | | |

E. Interlocal Sanitary Sewer Interceptor Agreement

The Town is party to an interlocal agreement, which establishes a non-profit water supply corporation (North Dallas County Water Supply Corporation) for the purpose of constructing, maintaining, and operating a joint sanitary sewer interceptor with the City of Farmers Branch. The non-profit water supply corporation is governed by a six-member board composed of three appointees from each entity. The Town was obligated for construction costs of the project in proportion to its percentage of allocated flows for each specific portion of the project as set forth in the agreement. The Town is also obligated to pay 55% of all general overhead costs. Operating and maintenance costs since the project became operational shall be paid in accordance with respective percentages of allocated flows as set forth in the agreement.

The Town's net investment and its share of general overhead expenses are reported in the Town's Utility Fund (an enterprise fund). The Town's equity interest in the North Dallas County Water Supply Corporation of \$7,125,020, net of related debt, is included in Unrestricted Net Assets. Complete financial statements for the North Dallas County Water Supply Corporation can be obtained from Charles Cox, Secretary/Treasurer, North Dallas County Water Supply Corporation, 13000 William Dodson Parkway, Farmers Branch, Texas.

September 30, 2013

F. Long-Term Debt

The long-term debt of the Town consisted of the following as of September 30, 2013:

| | Governmental | Business-type |
|--|--------------|---------------|
| - | Activities | Activities |
| General Obligation Bonds Series of 2004 | | |
| A series of 2,139 bonds at \$5,000 each dated August 15, 2004. The bonds were issued for the purpose of constructing an extension of Arapaho Road from Addison Road to Surveyor Road including construction of a bridge over Midway Road with related pedestrian walkways, for resurfacing Belt Line Road and for engineering and design of improvements to the Belt Line Road/Dallas Parkway intersection, and to pay costs associated with the issuance of the bonds. The bonds mature serially through 2018 with interest rates ranging from 3.5% to 4.5%. The bonds are callable at par plus accrued interest on or after February 15, 2015 in whole or in part in principal amounts of \$5,000. Bonds and interest are payable from Ad Valorem taxes. Ratings: Moody's "Aa1"; Standard & Poor's "AAA"; FSA Insured | \$ 765,000 | \$- |
| Combination Tax and Revenue Certificates of Obligation Series of 2004 | | |
| A series of 880 bonds at \$5,000 each dated November 15, 2004. The bonds were issued for the purpose of constructing improvements to and expanding the Addison Airport including improvements to runways, taxiways, lighting, drainage systems and facilities, the construction, design and engineering of a fuel farm, and to pay costs associated with the issuance of the certificates. The bonds mature serially through 2020 with interest rates ranging from 3.5% to 4.25%. The bonds are callable at par plus accrued interest on or after February 15, 2015 in whole or in part in principal amounts of \$5,000. Bonds and interest are payable from Ad Valorem taxes. Ratings: Moody's "Aa1"; Standard & Poor's "AAA"; MBIA Insured | - | 2,395,000 |
| General Obligation Refunding and Improvement Bonds Series of 2005 | | |
| A series of 1,571 bonds at \$5,000 each dated November 1, 2005. The bonds were issued to fund various public improvement projects up to \$1,500,000 to include engineering and other professional services, refund the Town's outstanding General Obligation Bonds, Series 1995; Combination Tax and Revenue Certificates of Obligation, Series 1997; \$4,335,000 of General Obligation Bonds, Series 2000; and costs of issuance associated with the sale of the bonds. The bonds mature serially through 2021 with interest rates ranging from 3.5% to 4.0%. The bonds are callable at par plus accrued interest on or after February 15, 2013 in whole or in part in principal amounts of \$5,000. Bonds and interest are payable from Ad Valorem taxes. | 1,880,000 | - |

September 30, 2013

Governmental **Business-type** Activities Activities **Combination Tax and Revenue Certificates of Obligation** Series of 2008 A series of 6,900 bonds at \$5,000 each dated May 1, 2008. The bonds were issued for the purpose of constructing improvements to (i) water, sewer, drainage, park and streets including sidewalks, street lighting, landscaping, extensions and relocations, and acquisition of land and rights-of-way; (ii) acquisition and construction of a water tower: (iii) acquisition of land for street and other municipal purposes (collectively with items (i) and (ii)); and (iv) payment of professional services of attorneys, financial advisors and other professionals in connection with the issuance of the certificates. The bonds mature serially through 2033 with interest rates ranging from 4% to 5%. The bonds are callable at par value plus accrued interest on or after February 15, 2018 in whole or in part in principal amounts of \$5,000. Bonds and interest are payable from a combination of Ad Valorem taxes and a limited pledge (not to exceed \$1,000) of surplus net revenues of the Town's Utility Fund. 7.696.847 24.863.153 Ratings: Moody's "Aa1"; Standard & Poor's "AAA"

General Obligation Refunding Bonds Series of 2011

A series of 1,778 bonds at \$5,000 each dated October 25, 2011. The bonds were issued to refund a portion of the Town's outstanding General Obligation Refunding Bonds, Series 2001, General Obligation Refund and Improvement Bonds, Series 2002 and Combination Tax and Revenue Certificates of Obligation, Series 2003; for interest savings, and costs of issuance associated with the sale of the bonds. The bonds mature serially through 2033 with interest rates ranging from 2.0% to 3.0%. The bonds are not callable. Bonds and interest are payable from a combination of Ad Valorem taxes and hotel occupancy taxes.

The Town intends to retire all of its general obligation bonds (other than those recorded in the enterprise funds), plus interest, from future Ad Valorem tax levies, interest income, and transfers from other funds. The Town is required by ordinance to create from such tax revenues a sinking fund sufficient to pay the current interest due thereon and each installment of principal as it becomes due. There is \$1,234,727 available in the General Obligation Debt Service Fund to service the general obligation bonds.

September 30, 2013

Proprietary fund-type debt is to be repaid from net revenues of the enterprise funds and is, accordingly, recorded as enterprise fund debt.

There are a number of limitations and restrictions contained in the various general obligations, certificates of obligation, and revenue bond indentures. The Town is in compliance with all significant limitations and restrictions at September 30, 2013.

For the governmental activities, compensated absences are generally liquidated in the General Fund, Economic Development Fund and Hotel Fund. The net OPEB obligation is generally liquidated in the General Fund.

The debt service requirements on the aforementioned bonded debt are as follows:

| | Governmental Activities | | Business-type | Activities |
|-----------------------------|-------------------------|------------|---------------|------------|
| | <u>Principal</u> | Interest | Principal | Interest |
| General Obligation Bonds: | | | | |
| 2014 | 4,050,000 | 1,543,812 | - | - |

| Total Transfers | \$ 578,501 | \$ 578,501 |

Purpose of Transfer Close Fund Close Fund Close Fund Close Fund For payment of debt service For payment of debt service

IV. OTHER INFORMATION

A. <u>Risk Management</u>

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2012, the Town maintained workers compensation, general liability and property coverage through the Texas Municipal League Intergovernmental Risk Pool (TMLIRP). The Town pays an annual premium to TMLIRP for such coverage. TMLIRP purchases reinsurance, and the Town does not retain risks of loss exceeding deductibles. The Town's general liability coverage is \$5,000,000 and \$10,000,000 in the aggregate. Settled claims have not exceeded insurance coverage in each of the past three years.

Prior to the 2001 fiscal year, the Town participated in a retained-risk program with TMLIRP under which the Town assumed the risk of paying for all individual claims with a specific stop-loss of \$175,000 and an annual aggregate stop-loss of \$525,000. Outstanding claims associated with the risk retention program are accounted for in the General Fund and are recorded as Accounts Payable. During fiscal year 2008, the one remaining claim met the stop-loss of \$175,000, and the Town has no future liability for this claim.

The Town offers health benefits through one of two plans operated by Blue Cross Blue Shield. Employees may choose either an HMO (health maintenance organization) plan or a PPO (preferred provider organization) plan. The Town also offers a dental plan through Delta Dental. The HMO, PPO, and dental plans are funded by joint contributions from the employees and the Town and are accounted for in the respective operating funds.

The Blue Cross and Delta Dental plans are fully insured contracts. Monthly premiums paid to Blue Cross and Delta Dental are based upon fixed employee and dependent rates that are established each year.

B. Employee's Retirement System

1) Pension Plan

Plan Description

The Town provides pension benefits for all of its full-time employees through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 833 administered by TMRS, an agent multiple-employer public employee retirement system. Each of the municipalities has an annual individual actuarial valuation performed. All assumptions for the December 31, 2012 valuations are contained in the 2012 TMRS Comprehensive Annual Financial Report, a copy of which may be obtained by writing to P.O. Box 149153, Austin, Texas 78714-9153. The report is also available on the System's web site at: http://www.tmrs.org/publications.php

NOTES TO FINANCIAL STATEMENTS September 30, 2013

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the Town-financed monetary credits, with interest. At the date the plan began, the Town granted monetary credits for services rendered before the plan began based on a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are 200 percent of the employee's accumulated contributions. Beginning in 1994, the Town adopted on an annually repeating basis another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and Town matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity. Also in 1994, the Town adopted annually repeating annuity increases for its retirees equal to 70% of the change in the consumer price index.

The plan provisions are adopted by the governing body of the Town, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes. Members can retire at certain ages, based on the years of service with the Town. The service retirement eligibilities for the Town are: 5 years/age 60, 20 years/any age. Plan provisions for the Town are as follows:

| Deposit Rate: | 7% |
|------------------------------------|---------|
| Matching Ratio (Town to Employee): | 2 to 1 |
| A member is vested after: | 5 years |

Funding Policy

Under the state law governing TMRS, the actuary annually determines the Town contribution rate on a calendar year basis. The rate for calendar year 2012 is 11.02%, and the rate for 2013 is 10.09%. This rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the Town matching percent, which are the obligation of the Town as of an employee's retirement date, not at the time the employee's contributions are made.

The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the Town to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (over-funded) actuarial liability (asset) over the remainder of the plan's amortization period. Both the employees and the Town make contributions monthly. Since the Town needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect (i.e. December 31, 2013 valuation is effective for rates beginning January 2015).

Annual Pension Cost and Net Pension Obligation

The Town's annual pension cost of \$1,763,244 was equal to the required contribution. As reflected in the schedule, the Town satisfied its requirements for all three years; therefore there is no net pension obligation.

September 30, 2013

The analysis of funding progress, included as required supplementary information following the notes to the financial statements, presents multiyear trend information about the actuarial value of plan assets in relation to the actuarial accrued liability for benefits.

| | Fiscal Year Ending September 30 | | | |
|---|---------------------------------|---------------|-----------------|--|
| | 2011 | 2012 | 2013 | |
| Annual Pension Cost | \$ 2,328,67 | 3 \$ 1,934,46 | 62 \$ 1,763,244 | |
| Contributions Made | 2,328,67 | 1,934,46 | 62 1,763,244 | |
| Net Pension Obligation (NPO) at End of Year | \$ | \$ | \$ | |
| Contributions as a % of Annual Pension Cost | 100 | <u>% 100</u> | % 100% | |

Funding Status and Funding Progress

As of December 31, 2012, the most recent actuarial valuation date, the plan was 100.2% funded. The actuarial accrued liability for benefits was \$94,730,798, and the actuarial value of assets was \$94,883,851, resulting in an unfunded actuarial accrued liability (UAAL) of \$(153,053). The covered payroll (annual payroll of active employees covered by the plan as of the valuation date) was \$15,598,079, and the ratio of the UAAL to the covered payroll was (1)%.

Changes in Actuarial and Amortization Methods

Since its inception, TMRS used the traditional Unit Credit actuarial funding method. This method accounted for the liability accrued as of the valuation date but did not project the potential future liability of provisions adopted by a city. The Town, as well as the majority of cities participating in TMRS, had adopted the Updated Service Credit and Annuity Increases provisions on an annually repeating basis. These provisions are considered to be "committed" benefits (or likely to be guaranteed); as such, at its December 8, 2007 meeting, the TMRS Board adopted the Projected Unit Credit (PUC) actuarial funding method, which facilitates advance funding for future updated service credits and annuity increases that are adopted on an annually repeating basis. For the December 31, 2007 valuation and subsequent annual valuations, the TMRS Board determined that the PUC method would be used.

In addition to the change in funding methods, the Board also adopted a change in the amortization period from a 25-year "open" to a 25-year "closed" period. TMRS Board of Trustee rules provide that, whenever a change in actuarial assumptions or methods results in a contribution rate increase in an amount greater than 0.5%, the amortization period may be increased up to 30 years unless a city requests that the period remain at 25 years. For cities with repeating features, these changes will likely result in higher required contributions and lower funded ratios.

To assist in this transition to higher rates, the Board also approved an optional eight-year phase-in period, which would allow cities the opportunity to increase their contributions gradually to their full, or required contribution, rate.

At its December 30, 2008 meeting, the City Council decided to withdraw the automatic repeating annuity increases to retirees, electing to approve these benefits on an ad hoc, or annual, basis in order to reduce the required contribution rate and improve funded status

2) Postemployment Benefits

Plan Description

In addition to the pension benefits described above, as required by state law and defined by Town Policy, the Town makes available health care benefits to all employees who retire from the Town and who are receiving benefits from a Town-sponsored retirement program (Texas Municipal Retirement System and/or a Section 457 Deferred Compensation Plan) through a single-employer defined benefit healthcare plan. This healthcare plan provides lifetime insurance, or until age 65 if eligible for Medicare, to eligible retirees, their spouses and dependents through the Town's group health insurance plan, which covers both active and retired members. Current retirees in the health plan and active employees with 20 years or more of service or at age 60 or more with five years or more of service at retirement are eligible to remain in the health plan at the total blended contribution rate for active and retiree participants. Since an irrevocable trust has not been established, the plan is not accounted for as a trust fund. The plan does not issue a separate financial report. Benefit provisions for retirees are not mandated by any form of employment agreement. The continued provision of these benefits is based entirely on the discretion of the Town of Addison City Council.

Funding Policy

Before age 65, the Town will pay a \$150 monthly stipend toward the retiree's healthcare premium if the retiring employee meets the eligibility criteria at the time of termination and elects coverage in the health plan. For members who retire after 65 or were eligible for the \$150 stipend before age 65, the Town will pay a \$75 monthly stipend directly to the retiree. Current retirees contribute to the health plan the total blended premium for active and retired participants, less the \$150 stipend provided by the Town. The Town contribution to the health plan consists of total premiums in excess of retiree contributions.

Retirees receiving medical benefits during fiscal year 2013 contribute \$395 to \$1,387 per month depending on coverage levels selected. In fiscal year 2013, total retiree contributions were \$122,257 The Town contributions to the plan for fiscal year 2013, which are also equal to premiums paid in excess of premiums collected from retirees, were \$8,027.

September 30, 2013

Annual OPEB Cost and Net OPEB Obligation

The Town's annual other postemployment benefit (OPEB) cost (expense) for the health plan is calculated based on the annual required contribution (ARC) of the Town, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The Town of Addison utilized the actuarial services of Gabriel, Roeder, Smith & Company (GRS), a company who has been providing actuarial consulting services since 1938, under the shared services arrangement provided by GRS and North Central Texas Council of Governments. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the Town's annual OPEB cost for the year, the amount actually contributed to the plan, and the net OPEB obligation for 2013.

| Annual Required Contribution | \$ 182,254 |
|---|------------|
| Interest on OPEB Obligation | 18,653 |
| Adjustment to ARC | (17,282) |
| Annual OPEB Cost (Expense) | 183,625 |
| Contributions Made | (155,383) |
| Change in OPEB Obligation | 28,242 |
| Net OPEB Obligation (Asset) – Beginning of Year | 386,542 |
| Net OPEB Obligation (Asset) – End of Year | \$ 414,784 |

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal year ending September 30, 2013 and the preceding two fiscal years were as follows:

| Fiscal Year | Annual OPEB Costs | Actual Contributions | Percentage of Annual OPEB Cost Contributed | Net OPEB Obligation |
|----------------|----------------------|-------------------------|---|------------------------|
| 2011 | \$ 177,978 | \$ 290,457* | 163.2% | \$ 351,990 |
| 2012 | 182,900 | 148,348 | 81.1% | 386,542 |
| 2013 | 183,625 | 155,383 | 81.7% | 414,784 |

* Employer contributions for the fiscal year ending September 30, 2011 includes historical implicit subsidies which were not reflected in prior years.

Funded Status and Funding Progress

As of December 31, 2012, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$2,003,539, none of which is funded. The covered payroll (annual payroll of active employees covered by the plan) was \$15,598,079, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 12.8. Of the total actuarial accrued liability, \$1,375,282 or 69% comprises the implied subsidy of health care for current retirees and active employees upon retirement. As noted previously, qualified retirees pay the blended cost of their health coverage, less the \$150 monthly stipend. However, GASB 45 requires governments to report the "implicit rate subsidy" that is provided to retirees who remain with the health plan provided to employees. It is assumed by actuaries that the cost of health care increases with the age of the covered employee or retiree. Since the Town's health plan includes a blended rate that is the same for active employees and retirees, actuaries must estimate the amount the Town is subsidizing for retirees to pay the blended health plan premiums.

For example, the actuarial estimated monthly cost for a 40 year old male employee's health care benefit is \$394.83. The estimate for a male employee or retiree who is 60 years old is \$1,387.03. The difference in these costs not covered by the health plan premium is considered to be the "implicit rate subsidy."

September 30, 2013

Actuarial values of the program involve estimates of the value of reported amounts and assumptions of the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the trend of healthcare costs. Amounts determined regarding the funded status of the program and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The analysis of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. As the Town chose to not establish an irrevocable trust, plan assets will always be reported under GASB Statement 45 as zero. Because the majority of the actuarial accrued liability is the "implicit rate subsidy" of retiree blended health plan premiums, the Town believes that its actual health plan postemployment benefit will not significantly grow over time and will continue to fund these benefits on a pay-as-you-go method. Changes to how future healthcare benefits are funded on a national basis may cause the Town to reexamine this funding method.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2012 actuarial valuation, the most recent valuation, the Projected Unit Credit Cost Method was used. The actuarial assumptions include a 4.5% investment rate of return (compounded annually net after investment expenses) and an annual healthcare cost trend of 7.5%, reduced by decrements to an ultimate rate of 4.5% after 9 years. Both rates include a 3% inflation assumption. The Town's unfunded actuarial accrued liability is being amortized as a level percent of active member payroll over an open period. The remaining amortization period at December 31, 2012 was 30 years.

C. Contingencies

As of September 30, 2013, litigation is pending with respect to matters arising in the normal course of the Town's operations. The Town's management is of the opinion that the settlement of the other pending litigation will not have a material adverse effect on the Town's financial statements.

D. Keller Springs Tollway

In 1999, the North Texas Tollway Authority (the Authority) completed a toll tunnel that connects Midway Road and the North Dallas Tollway. The project benefits the Town by diverting traffic from Belt Line Road, which is at capacity. The project's cost was approximately \$25 million which will be funded by revenue bonds issued by the Authority. Through an agreement with the Authority, the Town has pledged to be a guarantor of the debt service associated with approximately \$2.5 million of the revenue bonds in the event the authority defaults on the bonds. Because the Authority is an extremely viable state agency, the likelihood of a default is negligible.

September 30, 2013

New Accounting Pronouncements

The GASB issued Statement No. 64, Accounting and Financial Reporting-for Derivative Instruments, which will be effective for periods beginning after June 15, 2011. The Statement clarifies the existing requirements for the termination of hedge accounting. This statement applies to all state and local governments and amends Statement 53, paragraphs 22d and 82. The Town has no derivative instruments. In the future, if there is a situation that applies to this Statement, the Town will account for it appropriately.

The GASB issued Statement No. 63, Accounting and Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, which will be effective for periods beginning after December 15, 2011. The Statement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position. It alleviates uncertainty about reporting those financial statement elements by providing guidance where none previously existed. The Town will evaluate the impact of the standard on its financial statements and will take the necessary steps to implement it.

The GASB issued Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements, which will be effective for periods beginning after December 15, 2011. The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements, which are a type of public-private or public-public partnership. The Town will evaluate the impact of the standard on its financial statements and will take the necessary steps to implement it.

The GASB issued Statement No. 65, Items Previously Reported as Assets and Liabilities, which will be effective for periods beginning after December 15, 2012. The Statement reclassifies certain items that were previously reported as assets and liabilities, as deferred outflows or inflows of resources, and recognizes these items as outflows or inflows of resources. This statement applies to all state and local governmental entities. The Town will evaluate the impact of the standard on its financial statements and will take the necessary steps to implement it.

The GASB issued Statement No. 67, Financial Reporting for Pension Plans, which will be effective for periods beginning after June 15, 2013. The objective of this Statement is to improve financial reporting of state and local governmental pension plans with regard to providing decision useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement applies to all state and governmental entities and amends Statements 25 and 50. The Town will evaluate the impact of the standard on its financial statements and will take the necessary steps to implement it.

The GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions, which will be effective for periods beginning after June 15, 2014. The objective of this Statement is to improve accounting and financial reporting of state and local governmental pension plans. This Statement applies to all state-and governmental entities and replaces Statements 27 and 50. The Town will evaluate the impact of the standard on its financial statements and will take the necessary steps to implement it.

Six-year historical trend information is designed to provide information about the fund's progress made in accumulating sufficient assets to pay benefits when due for plan years 2008-2013. This information can be referred to in separately issued financial reports of the pension fund.

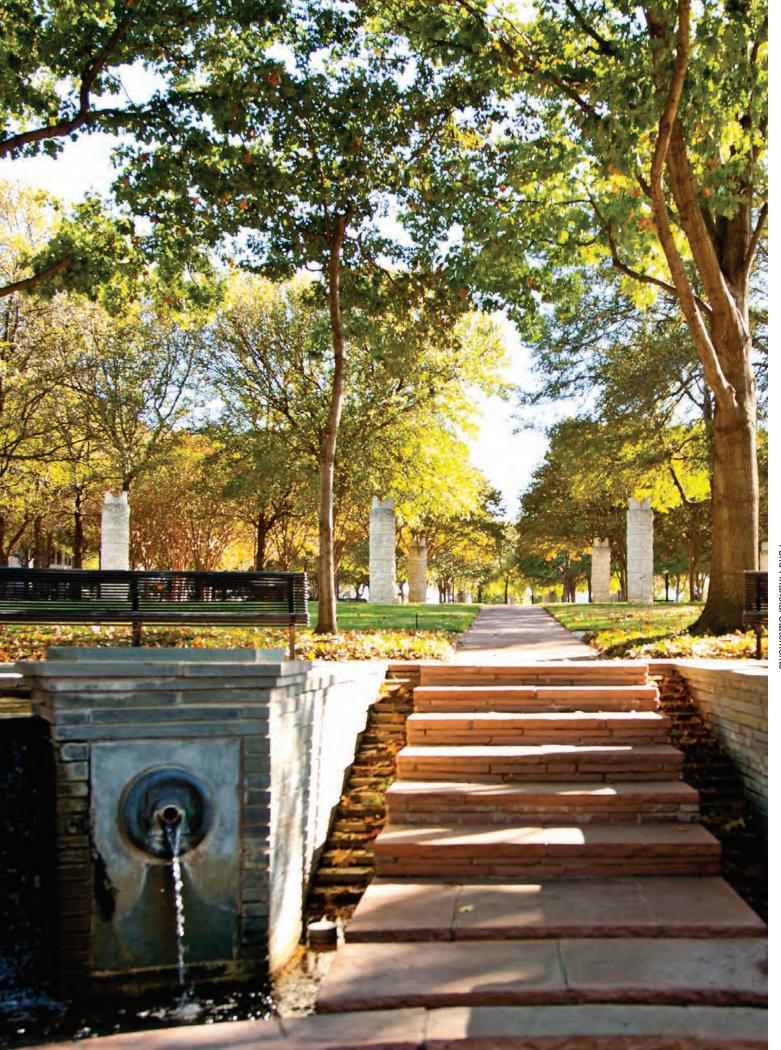

* For fiscal year 2008, the Town has presented two lines of information. Please see the Notes section of the CAFR for a brief explanation of the actuarial changes adopted by TMRS in calculating the Actuarial Accrued Liability (AAL). These changes became effective with the reporting period ending December 31, 2007. The first 2008 line presents the Actuarial Accrued Liability (AAL) using the old TMRS actuarial assumptions. The second 2008 line presents the Actuarial Accrued Liability assumptions.

CAPITAL PROJECT FUNDS

The **Capital Project Funds** accounts for financial resources to be used for the acquisition or construction of major capital facilities (other than those accounted for within the Town's proprietary fund). Capital projects are funded primarily by general obligation bonds.

NON-MAJOR GOVERNMENTAL FUNDS

The **Municipal Court Fund** accounts for the Town's court building security and technology fees that are generated from court citation fines. According to state law, the revenue generated from these fees may only be spent on the municipal court.

The **Public Safety Fund** accounts for awards of monies or property by the courts relating to cases that involve the Addison Police Department. In prior years, this fund was classified as an expendable trust fund.

The **Advanced Funding Grant Fund** was created during fiscal year 2010. The fund accounts for grant monies that are received prior to the related expenditure, and therefore the fund may carry a balance from year to year if the Town does not expend the monies within the fiscal year.

The American Recovery and Reinvestment Act (ARRA) Grant **Fund** was created during fiscal year 2010. The fund accounts for receipts and expenditures of ARRA grant monies. The Act requires the separation of ARRA funds from other grant monies.

The **Economic Development Fund** accumulates resources to support efforts that attract commercial enterprises to Addison and encourage existing businesses to remain in Addison.

The **Reimbursement Grant Fund** accounts for expenditures for which the Town expects to be reimbursed.

PROPRIETARY FUNDS

Enterprise Funds:

Enterprise funds account for operations that are financed and operated in a manner similar to private business system enterprises. The intent is to finance or recover the costs of providing goods or services to the general public on a continuing basis through user charges.

The **Airport Fund** accounts for all revenue generated by the Town's general aviation airport. The Town is required to spend this revenue on airport functions. The airport's operating, maintenance and capital expenses are supported solely by airport income. In prior years Airport Fund transactions had been classified and reported as a special revenue fund.

The **Utility Fund** provides water and sewer services to the residents and businesses of the Town. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing.

The **Stormwater Fund** is financed and operated in a manner similar to private business enterprises, where costs of providing the services to the public are financed primarily through user charges. All operating, maintenance, and capital expenses are supported solely by the approved user fees.

Internal Service Funds:

Internal Service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units on a cost reimbursement basis.

The **Capital Replacement Fund** is used to account for financial resources set aside annually to replace equipment as its useful life is consumed.

The **Information Technology Replacement Fund** is used to account for financial resources set aside annually to replace technology as its useful life is consumed.

⁽¹⁾ By ordinance, all General Obligation Bond debt is backed by the Ad Valorem taxing power of the Town. By budget, the debt for certain specified refunded bonds and certificates will continue to be paid by using funds derived from other sources which are listed below:

Arts and Event District Improvements - Debt paid by operations revenue of the Hotel Fund. Addison Airport Improvements - Debt paid by operations revenue of the Airport Fund. Water and Sewer Improvements - Debt paid by operations revenue of the Utility Fund. Stormwater Improvements - Debt paid by operations revenue of the Stormwater Fund.

⁽²⁾ The Net Tax Supported Debt Service Requirements schedule shows the actual Ad Valorem tax burden placed on the taxpayers, most of which are commercial businesses rather than resident citizens.

STATISTICAL SECTION

(Unaudited)

The Town of Addison's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Town's overall financial health.

Tables

| Financial Trends | These schedules contain trend information to help the reader understand how the Town's financial performance and well-being has changed over time. | 1-7 |
|--------------------------------------|--|-------|
| Revenue Capacity | These schedules present information to help the reader assess the Town's most significant local revenue source, the property tax. | 8-10 |
| Debt Capacity | These schedules present information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future. | 11-15 |
| Demographic & Economic Indicators | These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place. | 16-18 |
| Operating Information | These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs. | 19-21 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

SOURCE: Dallas Central Appraisal District

Notes:

- The Town's operating tax rate may be increased only by a majority vote of the City Council up to the limit prescribed by State (1) law, after which the Town's residents may petition for a vote. Rates for debt service are set based on each year's requirements.
- (2) Overlapping rates are those of local and county governments that apply to property owners within the Town of Addison. The Carrollton/Farmers Branch ISD tax rate is excluded from the total Ad Valorem rate because most of the property owners in Addison are within the Dallas ISD geographic boundaries.

SOURCE: Municipal Advisory Council of Texas

See Table 8 for taxable values and Table 16 for population data.

Notes:

- (1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the entity's taxable assessed value that is with the Town's boundaries and dividing by the entity's total taxable assessed value.
- ⁽²⁾ Total general obligation (G.O.) bonded debt shown for the Town of Addison excludes self-supporting debt and amount available for repayment in the Debt Service funds.

SCHEDULE OF REVENUE BOND COVERAGE WATER AND SEWER FUND

Last Ten Fiscal Years

| 2012 | 11,068,924 | 7,529,490 | 3,539,434 | | | | N/A |
| 2013 | 10,743,714 | 9,219,124 | 1,524,590 | | | | N/A |

Notes:

⁽¹⁾ Includes "operating expenses excluding depreciation" and "non-operating expenses" excluding interest expense.

⁽²⁾ Includes principal and interest of revenue bonds only. It does not include the general obligation bonds reported in the enterprise fund.

⁽³⁾ Revenue bond coverage is equal to net revenue available for debt service divided by total principal and interest. Revenue bonds were retired in fiscal year 2002. Current year debt associated with the Town's Utility (Water and Sewer) Fund is limited to general obligation bonds and certificates of obligation. This debt is secured by the Town's property taxes but is supported by Utility Fund revenues.

SCHEDULE OF COMBINATION TAX AND REVENUE CERTIFICATES OF OBLIGATION COVERAGE HOTEL FUND
