

**PROPOSAL FORM**

Feb. 07, <sup>2022</sup>  
2023

TO: The Honorable Mayor and Town Council  
Town of Addison, Texas

The undersigned bidder, having examined the plans, specifications and contract documents, and the location of the proposed work, and being fully advised as to the extent and character of the work, proposes to furnish all equipment and to perform labor and work necessary for completion of the work described by and in accordance with the Plans, Specifications and Contract for the following prices, to wit:

Signed by:  \_\_\_\_\_

**ACKNOWLEDGMENT OF ADDENDA:**

The Bidder acknowledges receipt of the following addenda:

- Addendum No. 1  \_\_\_\_\_
- Addendum No. 2  \_\_\_\_\_
- Addendum No. 3 \_\_\_\_\_

The following pages contain all bid items for:

**SURVEYOR PUMP STATION ELECTRICAL IMPROVEMENTS  
BID NUMBER 23-01**

**TOWN OF ADDISON**  
**SURVEYOR PUMP STATION ELECTRICAL IMPROVEMENTS**  
**BID NO. 23-01**  
**UNIT PRICES**

ITEM NO.	QUANTITY	UNIT	DESCRIPTION AND PRICE IN WORDS
1	1	LS	Bonds & Insurance <span style="float: right;">1,500</span>

This item consists of all labor, and related items required for to provide performance bond, payment bond, maintenance bond, and insurance as detailed in specifications PrB – PERFORMANCE BOND, PyB – PAYMENT BOND, MB – MAINTENANCE BOND, and IS – INSURANCE REQUIREMENTS, respectively.

Reference project specifications. The bid price for this item will not be subject to re-negotiation due to quantity overruns or underrun limitations set forth in the general specifications. Measurement and payment will be per Unit Price as set forth in the Contract; complete and in place, the sum of

*one thousand five hundred and zero dollars*

2	2	EA	Project Signs <span style="float: right;">6,000 <sup>MP</sup> 12,000</span>
---	---	----	---

This item consists of all supervision, labor, materials, equipment, incidentals and related items required for Installation of the project sign as detailed in specification PS – PROJECT SIGN.

Reference project specifications. This item includes construction and installation of two (2) project signs to be displayed at the construction site. The bid price for this item will not be subject to re-negotiation due to quantity overruns or underrun limitations set forth in the general specifications. Measurement and payment will be per Unit Price as set forth in the Contract; complete and in place, the sum of

*six thousand dollars and zero*

3	1	LS	Mobilization and Demobilization <span style="float: right;">\$29,000</span>
---	---	----	---

This bid item, lump sum, shall be no more than 5% of the base bid items 4 through 10. This item consists of all supervision, labor, materials, equipment, incidentals and related items required for construction mobilization.

Reference project specifications. This item includes getting all equipment, sub-contractors, and contractor prepared to begin construction of this project. The bid price for this item will not be subject to re-negotiation due to quantity overruns or underrun limitations set forth in the general specifications.

Payment will be made at the Lump Sum Price as set forth in the Contract; complete and in place, the sum of

*twenty nine thousand & zero  
dollars*

4	1	EA	Motor Control Center (MCC)	205,000
<p>This item consists of all cost of the Motor Control Center (MCC) as shown in the Contract Documents, including shop drawing submittals, factory testing, delivery to the Site, storage, and all associated cost for the purchase of MCC. The item includes all work associated with purchase of MCC as detailed in the contract documents.</p> <p>Measurement and payment will be per Unit Price as set forth in the Contract; complete and in place, the sum of</p> <p>two hundred five thousand dollars and zero</p>				

5	1	LS	Motor Control Center Installation	43,000
<p>This item consists of all supervision, labor, materials, equipment, incidentals and related items required to remove the existing motor control center and install the new Motor Control Centre at Surveyor Pump Station, complete and in place. The item includes all work associated with MCC removal &amp; installation as detailed in the contract documents. This work includes all incidental work specified and/or shown on the drawings and specifications not included in other bid items, this includes, but is not limited to, old MCC removal, equipment placement, integration, conduits routing, and all other work, labor, and materials for a complete and operational project not specifically described in other bid. Solenoid installation is incidental to this bid item.</p> <p>Payment will be made at the Lump Sum Price as set forth in the Contract; complete and in place, the sum of</p> <p>forty three thousand dollars and zero</p>				

6	1	EA	Rayvoss Surge Arrestor	4,000
<p>This item consists of all supervision, labor, materials, equipment, incidentals and related items required to install new Rayvoss Surge Arrestor at Surveyor Pump Station, complete and in place. The item includes all work associated with installation of Surge Arrestor as detailed in the contract documents. This work includes all incidental work specified and/or shown on the drawings and specifications not included in other bid items, this includes, but is not limited to, install new Surge Arrestor, all wirings, conduits, and, and all other work, labor, and materials for a complete and operational project not specifically described in other bid.</p> <p>Payment will be made at the Each at the unit price bid as set forth in the Contract; complete and in place, the sum of</p> <p>four thousand dollars and zero</p>				

7	150	LF	Remove & Replace existing Motor wires	\$160
<p>This item consists of all supervision, labor, materials, equipment, incidentals and related items required to remove the existing motor wires for three pumps at Surveyor Pump Station, complete and in place. The item includes all work associated with removal and installation of wires as detailed in the contract documents. This work includes all incidental work specified and/or shown on the drawings and specifications not included in other bid items, and all other work, labor, and materials for a complete and operational project not specifically described in other bid.</p> <p>Payment will be made at the Linear Feet Price as set forth in the Contract; complete and in place, the sum of</p> <p style="text-align: center;">one hundred sixty dollars</p>				

8	1	LS	High service pump, motor and pump base plate	105,000
<p>This bid item, lump sum, in an amount of \$105,000, consists of all cost of the High service pump, motor and pump base plate and associated items / materials required for its installation as shown in the Contract Documents, including shop drawing submittals, factory testing, delivery to the Site, storage, and all associated cost for the purchase of it. The item includes all work associated with purchase of High service pump, motor and pump base plate as detailed in the contract documents.</p> <p style="text-align: center;">dollars and zero cents one hundred five thousand <del>and zero dollars</del> mp</p>				

9	1	LS	Replacement of existing high service pump, motor and pump base plate	80,000 <del>24,000 mp</del>
<p>This item consists of all supervision, labor, materials, equipment, incidentals and related items required to remove the existing pump, motor and baseplate and install the new pump, motor and baseplate at Surveyor Pump Station, complete and in place. The item includes all work associated with pump, motor and baseplate removal and installation as detailed in the contract documents. This work includes all incidental work specified and/or shown on the drawings and specifications not included in other bid items, this includes, but is not limited to, old equipment removal, new equipment placement, integration, check alignment, grout the base to the foundation, install couplings, pre-startup checkup procedure, and all other work, labor, and materials for a complete and operational project not specifically described in other bid.</p> <p>Payment will be made at the Lump Sum Price as set forth in the Contract; complete and in place, the sum of</p> <p style="text-align: center;">Eighty thousand dollars &amp; zero <del>twenty four thousand dollars and zero mp</del></p>				

10	1	LS	Startup and Commissioning	\$11,000
----	---	----	---------------------------	----------

This item consists of all supervision, labor, materials, equipment, incidentals and related items required for MCC, pump and motor startup and commissioning at Surveyor Pump Station, complete and in place. The item includes all work associated with startup and commissioning as detailed in the contract documents. This work includes all incidental work specified and/or shown on the drawings and specifications not included in other bid items, this includes, but is not limited to, on-site testing, shop drawing submittals, labor, tools, equipment for a complete and operational project not specifically described in other bid.

Payment will be made at the Lump Sum Price as set forth in the Contract; complete and in place, the sum of

eleven thousand <sup>dollars</sup> & zero

11	1	LS	O&M and Final Documentation	\$600
----	---	----	-----------------------------	-------

This item consists of handing over all project documents to Town of Addison. This work includes all incidental work specified and/or shown on the drawings and specifications not included in other bid items, this includes, but is not limited to, O&M manual, warranties, guaranties, As-Built and all final Contract documentation, including As-Shipped Drawings, Certificate of Quality Conformance, Maintenance data, MCC, pump and motor installation instructions, Installation/operation instructions for major components such as, automatic transfer switch, and circuit breakers, and MCC spare parts listing and pricing.

Payment will be made at the Lump Sum Price as set forth in the Contract; complete and in place, the sum of

Six hundred dollars & zero

12	1	LS	SCADA Integration	35,000
----	---	----	-------------------	--------

This bid item, lump sum, in an amount of \$35,000 consists of all supervision, labor, materials, equipment, incidentals and related items required to for SCADA integration at Surveyor Pump Station as per the detailed scope by Prime Control Inc (C0A08182022CJC) specified in Appendix B, and all other work, labor, and materials for a complete and operational project not specifically described in other bid.

thirty five thousand <sup>dollars and zero cents</sup> ~~and zero dollars~~ mp

13	1	AL	Construction Contingency Allowance <span style="float: right;">70,000</span>
<p>This bid item, lump sum, consists of construction contingency in the amount of \$70,000, as directed by the Town of Addison. Payment, for part or in full, for this item will only be made following written authorization by the Town of Addison to perform the work. This item includes all incidental work specified and/or shown on the drawings not included in other bid items, this includes, but is not limited to mobilization, pipes, valves, MCC installation, Pump / motor / baseplate installation, electrical improvements, connections, electrical equipment, conduit and cable, and all other work, labor and materials for a complete and operational project not specifically described in other bid items.</p> <p style="text-align: center;">seventy thousand dollars and zero cents</p>			

## SUMMARY OF BID ITEMS AND TOTAL AMOUNT FOR AWARD EVALUATION:

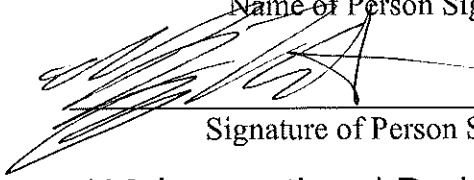

ITEM NO.	DESCRIPTION	UNIT	ESTIMATED QUANTITIES	UNIT PRICE	TOTAL BID AMOUNT
1	Bonds & Insurance	LS	1	1,500	1,500
2	Project Sign	EA	2	6,000	12,000
3	Mobilization and Demobilization (Max 5%)	LS	1	24,000	24,000
4	Motor Control Center	EA	1	205,000	205,000
5	Motor Control Center Installation	LS	1	43,000	43,000
6	Rayvoss Surge Arrestor	EA	1	4,000	4,000
7	Remove & Replace existing Motor wires	LF	150	160	24,000
8	High Service Pump, motor and pump base plate	LS	1	\$ 105,000	\$ 105,000.00
9	Replacement of existing high service pump, motor and pump base plate	LS	1	80,000 <del>24,000 MP</del>	80,000 <del>24,000 MP</del>
10	Startup and Commissioning	LS	1	11,000	11,000
11	O&M and Final Documentation	LS	1	600	600
12	SCADA Integration	LS	1	\$ 35,000	\$ 35,000.00
13	Construction Contingency allowance as directed by Owner	AL	1	\$ 70,000	\$ 70,000.00
TOTAL BID PRICE (Including Bid Items 1-13)				\$620,100.00	
TOTAL BID PRICE (In Words)				Six hundred twenty thousand, one hundred dollars & Zero	

- NOTES:
1. All items, labor, materials, equipment, facilities, incidentals and work required for construction of the project are to be provided and installed by the Contractor as part of the project and payment for the cost of such shall be included in the price bid for the construction of the project.
  2. Prices must be shown in words and figures for each item listed in the Proposal. In the event of discrepancy, the words shall control.
  3. Materials, which are "tax exempt", are those items which are physically incorporated into the facilities constructed for the Town of Addison, as set forth in the Special Provisions. Materials include, but are not limited to purchased items such as water pipe, sanitary sewer pipe, storm drain pipe, etc.
  4. Services, which are "not tax exempt", are those items which are used by the Contractor but are not physically incorporated into the Town of Addison's facility and/or items which are consumed by construction, as set forth in the Special Provisions. Services include, but are not limited to, items such as supplies, tools, skill and labor, the purchase, rental or lease of equipment, etc.

**SECTION BQS**

**BIDDER QUALIFICATIONS STATEMENT**

## SECTION BQS

**ALL BIDDERS ARE NOTIFIED THAT THE FOLLOWING QUALIFICATION STATEMENT MUST BE COMPLETED AND SUBMITTED WITH THE BID PROPOSAL**

### **CONTRACTOR'S QUALIFICATIONS**

The Contractor shall show that he has experience with similar projects that require working on water, sanitary sewer, and storm sewer construction and/or relocation projects working in confined areas in close proximity to many physical features (such as: fences, carports, utility poles, guy lines, gas lines and meters, water lines, sewer manholes and cleanouts, etc.) which will require the Contractor to plan his work efforts and equipment needs with these limitations in mind. The Contractor shall submit a complete list of ALL Municipal and Similar Non-Municipal current and completed projects for the past three (3) years for review. This list shall include the names of supervisors and type of equipment used to perform this work. Bidder shall submit a bid bond equal to five percent (5%) of the bid price. Failure to submit a bid bond when required may deem the bid non-responsive. Bid Bonds may be submitted electronically with the executed original provided immediately upon request.

<b>Felix Contact:</b>	David Giannetto, Project Manager, Felix Construction	<b>Dates:</b>	2/2013 – 7/2013
<b>Owner Contact:</b>	Wayne Debrosky, Utilities Director, Town of Clarkdale	<b>Phone:</b>	(602) 625-4811
<b>Phone:</b>		<b>Phone:</b>	(928) 639-2520
<b>Description:</b>	 <p>Felix was selected as the Construction Manager at Risk on this project that won the <i>2013 Drinking Water Project of the Year</i> award. Clarkdale borrowed \$1.6 million from WIFA, which included \$800,000 in forgivable principal, to replace and relocate two above-ground 5-inch steel water mains. The 90-year old exposed water mains were vulnerable to natural disasters and introduction of chemical or biological agents. By implementing these improvements, the Town of Clarkdale has eliminated the security risk and resolved operation and maintenance issues. The project was selected for the award based on Clarkdale's exceptional dedication to the project and the significant improvements made to protect public health. As the General Contractor, Felix's project scope included installation of 7,200 linear feet of 12" C900 pipe and 2,200 linear feet of 8" C900 pipe.</p>		

<b>Project 4:</b>	<b>Agua Fria Water Plant No. 14 – Surprise, AZ</b>		
<b>Type:</b>	New Construction (Water Facility)	<b>Location:</b>	City of Surprise
<b>Role:</b>	General Contractor (CMAR)	<b>Contact Cost:</b>	\$7.0M
<b>Felix Contact:</b>	Zach Foster, Project Manager, Felix Construction	<b>Dates:</b>	12/2007 – 11/2009
<b>Owner Contact:</b>	Brian Krouse, PM, RED Development	<b>Phone:</b>	(602) 390-5208
<b>Phone:</b>		<b>Phone:</b>	(480) 250-1907
<b>Description:</b>	 <p>Felix was selected as the Construction Manager at Risk for the construction of a new potable water booster station, a 2.25 million gallon above ground steel reservoir, chlorine disinfection, surge tank, electrical building and site improvements in Surprise, AZ. Work included installing pumps and motors, surge tank, air compressor, instruments and controls, chlorination system, piping, valves, fittings and appurtenances, site work, steel storage tank, emergency generator pump and control building, electrical instruments and equipment, programming and connection to telemetry and two off-site wells.</p>		

<b>Project 5:</b>	<b>Rancho Gabriella BPS and Arsenic Treatment Facility – Surprise, AZ</b>		
<b>Type:</b>	Facility Expansion Project (Water Facility)	<b>Location:</b>	City of Surprise
<b>Role:</b>	General Contractor (CMAR)	<b>Contact Cost:</b>	\$6.3M
<b>Felix Contact:</b>	David Giannetto, Project Manager, Felix Construction	<b>Dates:</b>	7/2008 – 7/2009
<b>Owner Contact:</b>	Lee Lambert, Senior Project Manager, City of Surprise	<b>Phone:</b>	(602) 625-4811
<b>Description:</b>	 <p>Felix was selected as the Construction Manager at Risk for the expansion of a potable water booster station and the construction of an arsenic treatment facility at the Rancho Gabriela Water Treatment Facility in Surprise, AZ. Our BPS scope included the addition of a bank of variable speed vertical turbine barrel pumps. Two (2) pumps were installed as part of this project. The existing on-site sodium hypochlorite generation system disinfected the well water as it entered the storage reservoirs. The two existing sodium hypochlorite tanks that were located inside the chlorination building were relocated to outside of the building. A new 150 lb/day sodium hypochlorite generator with one 75 lb/day cell was installed in the building. In addition, a new rectifier and interface terminal was installed within the building. The existing water softeners were replaced with higher capacity units. A new 675 gallon brine tank was installed inside the existing building. New piping between the tanks and the disinfection equipment was installed. Finally, the existing concrete slab and shade structure was extended. The scope for the Arsenic Treatment Facility included installation of an arsenic treatment system capable of treating twelve thousand (12,000) gallons per minute of water from eight (8) domestic wells resulting in drinking water containing seven (7) ppb of arsenic or less. The project included twelve (12) 2500 gallon pressurized filter media vessels with interconnecting pipe and motor operated valves, four (4) dual pump chemical injection skids for introduction of pre and post treatment and ferric chloride for coagulation, four (4) 3000 gallon chemical storage tanks, large diameter tie-ins to the existing and future reservoirs, 24" DIP water transmission lines, 16" DIP water distribution lines, a complete backwash system including pumps two (2) 50,000 gallon settling tanks with solids storage and de-water bins, supporting electrical systems including integration to the plants existing Security and SCADA systems, and a building to house the new electrical systems.</p>	<b>Phone:</b>	(623) 222-7032
